Long-Term Air Transportation Study

Washington Aviation System Plan

July 2009

This page left intentionally blank

Washington State
Department of Transportation

The following statement is provided as required by Paragraph 429.a of Federal Aviation Administration (FAA) Order 5100.38, Airport Improvement Program (AIP) Handbook:

The preparation of this document was financed in part through a planning grant (AIP 3-53-0000-05) from the FAA as provided under Section 505 of the Airport and Airway Improvement Act of 1982. The contents do not necessarily reflect the official views or policy of the FAA. Acceptance of this report by the FAA does not in any way constitute a commitment on the part of the United States to participate in any development depicted therein; nor does it indicate that the proposed development is environmentally acceptable in accordance with appropriate public laws.

In addition, this report was partially funded by grants from Washington State.

The report was developed through a joint effort with the Washington State Department of Transportation (WSDOT Aviation) and the SH&E study team, which included Simat, Helliesen & Eichner, Inc. (SH&E), W&H Pacific, URS Corp., PRR, and Cambridge Systematics, Inc. (CSI).

WSDOT Aviation expresses its appreciation to airport sponsors and the LATS Technical Advisory Committee for their participation in the development of this report.

TABLE OF CONTENTS

Table of Exhibits ..... **iv**

Acknowledgements **1**

Executive Summary **1**

Chapter 1: Study Overview **41**

Introduction 41

Washington State Long-Term Air Transportation Study (LATS) 42

Washington Aviation System Plan (WASP) 47

Chapter 2: Washington Public Airports **51**

Introduction 51

Public Airports Overview 54

Washington State Airport Classification System 58

Chapter 3: Statewide Activity **73**

Introduction 73

Commercial Passenger Service Overview 74

General Aviation Overview 81

Air Cargo Overview 84

Chapter 4: Regional Activity **87**

Introduction to Special Emphasis Regions 87

Puget Sound Region 88

Southwest Region 92

Spokane Region 95

Tri-Cities Region 97

Other Regions of the State 99

Chapter 5: Aviation Trends **103**

Current Commercial Service Trends 103

Current General Aviation Trends 111

Chapter 6: System Performance 115
Washington State Performance Objectives 115
Washington State System Performance 127

Chapter 7: Activity Forecast 133
Purpose and Scope of Activity Forecasts 133
Washington Commercial Activity Forecast 134
Washington General Aviation Activity Forecast 137
Washington Air Cargo Activity Forecast 143

Chapter 8: Capacity Analysis 147
Airfield Capacity 149
Passenger Terminal Capacity 156
Aircraft Storage Capacity 160
Air Cargo Capacity 165
Airspace Analysis 168

Chapter 9: Alternate Airports Assessment 170
Background and Purpose 170
Capacity Constraints at Washington Airports 172
First Level Identification of Potential Alternate Airports 175
First Level Identification of Potential Alternate Airports 176

Chapter 10: Public Process 184
Regional Public Meetings 185
Electronic Town Halls 190
Online Survey 197

Chapter 11: Aviation System Policies 204
LATS Policy Development Process 204
Aviation Policy Areas 207
Aviation Policy Recommendations 208

Appendix A: Detailed Table of the Washington State Airports 217

Appendix B: Aviation Stakeholders 223

Appendix C: List of LATS Technical Reports and Technical Memorandums 230

Appendix D: Glossary 232

Airport Abbreviations 234

Definitions 236

Appendix E: Bibliography 251

TABLE OF EXHIBITS

Exhibit ES-1: The Three Phases of LATS 2
Exhibit ES-2: The Washington Aviation System Plan Components 4
Exhibit ES-3: Washington State Special Emphasis Regions 5
Exhibit ES-4: Distribution of Airports by Classification 8
Exhibit ES-5: Washington State Public Use Airports System 10
Exhibit ES-6: Performance Objectives and Their Applicability to Airport Classifications 12
Exhibit ES-7: Commercial Service Airports Performance Assessment 14
Exhibit ES-8: Regional Service Airports Performance Assessment 14
Exhibit ES-9: Community Service Airports Performance Assessment 15
Exhibit ES-10: Local Service Airports Performance Assessment 15
Exhibit ES-11: Rural Essential Airports Performance Assessment 16
Exhibit ES-12: Seaplane Bases Performance Assessment 16
Exhibit ES-13: Washington Airports Expected to Approach or Exceed 100% Capacity by 2030 20
Exhibit ES-14: Airports Exceeding 100 Percent of Operations Capacity by 2030 23
Exhibit ES-15: Airports at 60 Percent Capacity by 2030 24
Exhibit ES-16: Passenger Terminal Expansion Requirements 25
Exhibit ES-17: Airports Exceeding Aircraft Storage Capacity by 2030 28
Exhibit ES-18: Amtrak Coast Starlight Service 32
Exhibit ES-19: Amtrak Empire Builder Service 32
Exhibit ES-20: Amtrak Cascades Service 32
Exhibit ES-21: Washington Aviation System Planning Hierarchy 34
Exhibit 1-1: The Three Phases of LATS 43
Exhibit 1-2: Washington's Aviation System Planning Hierarchy 48
Exhibit 1-3: The Washington Aviation System Plan Components 49
Exhibit 2-1: Washington State Public Use Airports 53
Exhibit 2-2: NPIAS Airports 56
Exhibit 2-3: Non-NPIAS Airports 57
Exhibit 2-4: Distribution of Airports by Classification 60
Exhibit 2-5: State Classification – Commercial Service Airports 61
Exhibit 2-6: Commercial Service Airports 61
Exhibit 2-7: State Classification – Regional Service Airports 63

Exhibit 2-8: Regional Service Airports 64
Exhibit 2-9: Access to Regional Service Airports and Comparable Commercial Service Airports 65
Exhibit 2-10: State Classification – Community Service Airports 66
Exhibit 2-11: Community Service Airports 67
Exhibit 2-12: State Classification – Local Service Airports 67
Exhibit 2-13: Local Service Airports 68
Exhibit 2-14: State Classification – Rural Essential Airports 69
Exhibit 2-15: Rural Essential Airports 70
Exhibit 2-16: State Classification – Seaplane Bases 71
Exhibit 2-17: Seaplane Bases 71
Exhibit 3-1: Washington Airports with Commercial Passenger Service 75
Exhibit 3-2: Map of Washington Airports with Commercial Passenger Service 75
Exhibit 3-3: Airports Ranked by Passenger Enplanements, *CY 2006* 76
Exhibit 3-4: Washington State Commercial Airport Route Maps, *April 2007* 77
Exhibit 3-5: Washington State Fleet Mix, *2005* 82
Exhibit 3-6: Washington State Based Aircraft by RTPO, *2005* 82
Exhibit 3-7: Puget Sound Region Share of Washington State Based Aircraft by Type, *2005* 83
Exhibit 3-8: 2005 Washington State Top 24 Airports in Air Cargo Tonnage 85
Exhibit 3-9: 2005 Washington State Air Freight Tonnage Share by Region 86
Exhibit 4-1: Washington Special Emphasis Regions 87
Exhibit 4-2: Puget Sound Region 88
Exhibit 4-3: Airports in the Puget Sound Region SER 89
Exhibit 4-4: Southwest Region 92
Exhibit 4-5: Airports in the Southwest Washington SER 93
Exhibit 4-6: The Spokane Region 95
Exhibit 4-7: Airports in the Spokane SER 96
Exhibit 4-8: The Tri-Cities Region 97
Exhibit 4-9: Airports in the Tri-Cities SER 98
Exhibit 4-10: Small Commercial Airports in Washington That Have Lost All or Significant Commercial Scheduled Service, *August 1995 – August 2005* 100
Exhibit 5-1: U.S. Major Airlines /1 Operating Profit, *2000 to 2006* 104
Exhibit 5-2: Average Domestic Passenger Load Factors for U.S. Airlines 105
Exhibit 5-3: U.S. Low-Fare Carrier Share of Total Domestic Nonstop Seats, *1990–2006* 106

Exhibit 5-4: Average Aircraft Seat Size for U.S. Regional Airlines, *August 1995 - August 2006* 108
Exhibit 5-5: Lost Service by Airport Hub Type, *2000 vs. 2007* 109
Exhibit 6-1: Performance Objectives and Their Applicability to Airport Classifications 116
Exhibit 6-2: Runway Length Performance Objectives 121
Exhibit 6-3: Commercial Service Airports Performance Assessment 127
Exhibit 6-4: Regional Service Airports Performance Assessment 128
Exhibit 6-5: Community Service Airports Performance Assessment 129
Exhibit 6-6:: Local Service Airports Performance Assessment 130
Exhibit 6-7: Rural Essential Airports Performance Assessment 131
Exhibit 6-8: Seaplane Bases Performance Assessment 132
Exhibit 7-1: Washington State Commercial Service Airports: Projected Growth in Passenger Enplanements *In Thousands, 2005 – 2030* 135
Exhibit 7-2: Washington State Commercial Service Airports: Share of Total State Passenger Enplanements, *2005 Actual vs. 2030 Projected* 135
Exhibit 7-3: Washington State Commercial Service Airports: Projected Growth in Commercial Aircraft Operations, *2005 – 2030* 137
Exhibit 7-4: Washington State RTPO Based Aircraft Growth, *2005–2030* 138
Exhibit 7-5: RTPO Share of Washington State Based Aircraft, *2005–2030* 139
Exhibit 7-6: Washington State RTPO GA Operations Forecast, *2005–2030* 140
Exhibit 7-7: RTPO Shares of Washington State GA Operations, *2005-2030* 141
Exhibit 7-8: Based Aircraft By Special Emphasis Region, *2005–2030* 142
Exhibit 7-9: GA Operations By Special Emphasis Region, *2005–2030* 142
Exhibit 7-10: Washington State Air Cargo Volume (Tons) Forecast by Cargo Type 143
Exhibit 7-11: Air Cargo Forecast Concentration 144
Exhibit 7-12: Washington State Current and Forecast All-Cargo Operations by Aircraft Type 145
Exhibit 7-13: Washington Air Cargo Volume / Operations Forecast 146
Exhibit 8-1: Washington Airports Expected to Approach or Exceed 100% Capacity by 2030 148
Exhibit 8-2: Current State System Capacity by Airport Service Classification 150
Exhibit 8-3: 2005 Operations as Percent of Current Capacity by Airport Service Classification 150
Exhibit 8-4: 2005 Operations as Percent of Current Capacity by RTPO 151
Exhibit 8-5: Washington Airports Over 60 Percent Operations Capacity as of 2005 152
Exhibit 8-6: 2005 vs. 2030 Demand by Service Classification 152
Exhibit 8-7: 2030 Operations Distribution by RTPO 154

Exhibit 8-8: Airports with Anticipated Constraints in Operations Capacity by 2030 155
Exhibit 8-9: Washington Airports with Scheduled Passenger Service, 2005 157
Exhibit 8-10: Peak Hour Enplaned Passenger Forecasts v. Terminal Capacity 159
Exhibit 8-11: 2005 Washington State Aircraft Storage Demand versus Capacity by RTPO 161
Exhibit 8-12: Statewide Aircraft Storage Capacity Shortfalls, in number of storage positions 163
Exhibit 8-13: 2030 Washington State Aircraft Storage Demand versus Capacity by RTPO 164
Exhibit 8-14: Air Cargo Tonnage at Top 10 Washington Airports, 2005 166
Exhibit 9-1: Airports Forecast to Exceed Airfield and/or Passenger Terminal Capacity in 2030 172
Exhibit 9-2: Airports Forecast to Exceed Aircraft Storage Capacity Only in 2030 172
Exhibit 9-3: Airports Expected to Experience Airfield Constraints in 2030 173
Exhibit 9-4: Airports Expected to Experience Terminal Constraints in 2030 174
Exhibit 9-5: Airports Expected to Experience Aircraft Storage Constraints in 2030 175
Exhibit 9-6: Potential Alternate Airports for Sea-Tac (SEA) 177
Exhibit 9-7: Potential Alternate Airports for Boeing Field (BFI) 179
Exhibit 9-8: Potential Alternate Airports For Washington Commercial Service Airports with Expected Constraints in 2030 181
Exhibit 9-9: Potential Alternate Airports For Washington Regional Service Airports with Expected Constraints in 2030 181
Exhibit 9-10: Potential Alternate Airports For Washington Community Service, Local Service and Recreation/Remote Airports with Expected Constraints in 2030 182
Exhibit 11-1: Washington Aviation System Planning Hierarchy 204

ACKNOWLEDGEMENTS

Washington Aviation Planning Council

Carol Moser (Chair), Washington State Transportation Commission Member
Paul A. Roberts (Vice Chair), Western Washington Public Representative
John Sibold, Aviation Director Washington State Department Transportation
John Townsley, Eastern Washington Public Representative
David Field, FAA Technical Expert
Gratton O. Sealock (Neal), Spokane International Airport Manager
James McNamara, Western Growth Management Hearings Board (GMHB) Member
Penelope L. Loomis, Washington Airport Management Association Representative
Donald Garvett, Airline Representative
Juli Wilkerson, Director Washington State Department of Community Trade and Economic Development*

**Ms. Wilkerson retired in 2009 and was replaced by Larry Williams, Deputy Director*

WSDOT Aviation Staff

John Shambaugh, Project Manager
Nisha Marvel, Aviation Communications
Krishan Aggarwal, Fiscal Manager
Marilee Pribble, Executive Assistant
Tracy Paul, Aircraft Registration

LATS Consultant Team

Deborah Meehan, SH&E
David Hollander, SH&E
Sonjia Murray, SH&E
Mark Diamond, SH&E
Helen Lin, SH&E

Rita Brogan, PRR
Kimbra Wellock, PRR

John Yarnish, URS

Sara Funk, WHPacific

David Williams, WHPacific

Kevin Tierney, Cambridge Systematics

FAA

Mary Vargas, FAA Seattle Airports District Office

Other Contributors

Leonard Bauer, Growth Management Services, Washington Department of Community, Trade, and Economic Development
Mike Boggs, Mead & Hunt
Joelle Briggs, Regional Compliance Manager, Northwest Mountain Region, FAA
Michael Cheyne, SeaTac Airport
Dick Ford, Washington Transportation Commission
Mike Meigs, FAA, Office of Runway Safety
Bill McCready, Knowledge Networks
Paul Parker, Senior Policy Analyst, Washington Transportation Commission
Dennis Roberts, FAA Regional Administrator
Jack Scott, Regional Pavement Engineer, FAA Northwest Region,
Elizabeth Stratton, Freight Policy and Project Manager, WSDOT
Kerri Woehler, WSDOT
Paul Wolf, Construction Project Manager, WSDOT Aviation

Special acknowledgement to all the Washington airports, who contributed to the study through their provision of data and feedback and review of study findings.
