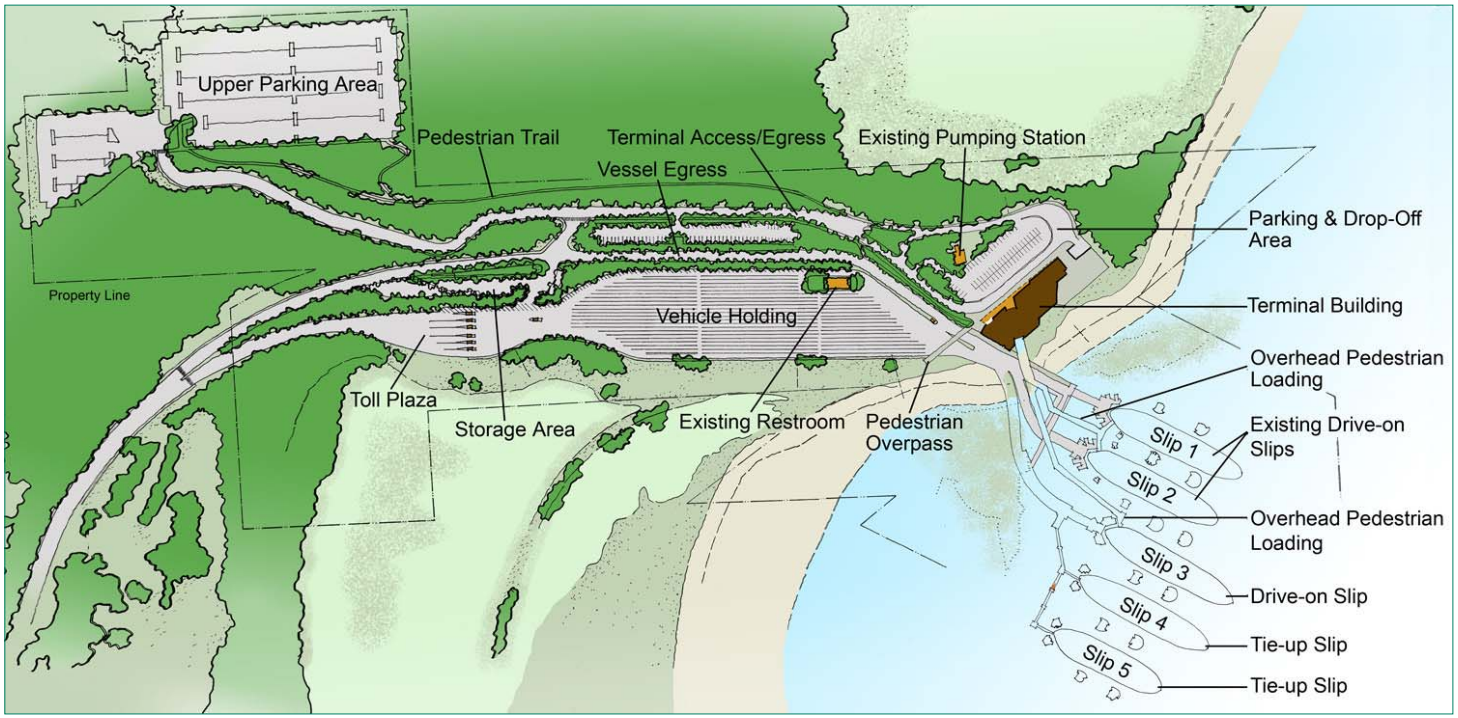
Washington State Department of Transportation

Washington State Ferries

Anacortes Terminal Plan



Key Features:

- New terminal building with improved waiting area, concessions and other amenities
- Rebuilt tie-up slips, located further offshore to encourage eel grass growth and accommodate larger vessels in the future
- New operational slip to avoid service disruptions during maintenance and increase flexibility of service
- Rebuilt and expanded passenger overhead loading to ensure ease of use for persons with limited mobility
- Improved traffic flow while vessels are being loaded and unloaded
- Bicycle lanes and sidewalks will connect to the terminal building
- Improvements to meet new security requirements
