

Contents

Chapter 1	Emergency Procedures	1-1
	1-1 General Responsibilities	1-1
	1-2 Regional Emergency Response Procedures	1-2
	1-3 WSDOT Emergency Operations Plan	1-2
	1-4 Organization and Assignment of Responsibilities	1-3
	1-5 Administration and Logistics	1-3
	1-6 Plan Development and Maintenance	1-3
	1-7 Training and Exercises	1-3
	1-8 Emergency Operating Procedures (Hazardous Materials)	1-4
	1-9 Abandoned Cargo	1-6
	1-10 Clearing the Highway	1-6
Chapter 2	Work Zone Traffic Control and Safety	2-1
	2-1 General	2-1
Chapter 3	Pavement Patching and Repair	3-1
	3-1 General	3-1
	3-2 Reference	3-1
	3-3 Resources	3-2
	3-4 Communication	3-2
	3-5 Integrated Pavement Preservation	3-3
	3-6 HATS	3-6
	3-7 Pavement Distresses	3-6
	3-8 Preventive Maintenance Techniques	3-14
	3-9 Crack Sealing (or Pouring)	3-15
	3-10 Bituminous Surface Treatments	3-16
	3-11 HMA Repair Methods	3-17
	3-12 HMA Materials Information	3-23
	3-13 Classes of Hot Mix Asphalt (HMA)	3-23
	3-14 Successful Chip Seal Projects	3-24
	3-15 Pavement Conditions	3-24

3-16	Chip Seal Material Selection	3-24
3-17	Chip Seal Construction Overview	3-25
3-18	Chip Seal Pre-Construction	3-27
3-19	Calibration Procedures	3-34
3-20	Blade Mixed Asphalt Mix	3-36
3-21	Handling Emulsified Asphalts	3-37
3-22	Maintenance of Rigid Pavements	3-38
3-23	Portland Cement Concrete Pavement Crack Pouring	3-38
3-24	Portland Cement Concrete Panel Replacement	3-39
Chapter 4	Drainage	4-1
4-1	General	4-1
4-2	Drainage From Abutting Properties	4-2
4-3	Ditches and Gutters	4-3
4-4	Rockfall Ditches and Slope Benches	4-3
4-5	Dry Wells	4-4
4-6	Culverts	4-4
4-7	Automatic Pumps	4-5
4-8	Under Drains	4-5
4-9	Horizontal Drains	4-6
4-10	Storm Sewers and Catch Basins	4-9
4-11	Bank Protection	4-10
4-12	Detention Ponds, Tanks, and other Storm water Treatment Facilities	4-10
Chapter 5	Maintenance of Structures	5-1
5-1	General	5-1
5-2	Major Structures	5-1
5-3	Minor Structures	5-1
5-4	Inspection	5-2
5-5	Bridge Repair Guidelines	5-4
5-6	Bridge Information	5-5
5-7	Environmental Aspects	5-5
5-8	Utility Installations	5-6

Chapter 6	Roadside Management	6-1
	6-1 General	6-1
	6-2 Definitions	6-1
	6-3 Reference	6-3
	6-4 Resources	6-4
	6-5 Sustainable Roadside Design and Management.....	6-4
	6-6 Roadside Management Zones.....	6-6
	6-7 The Practice of Integrated Vegetation Management.....	6-9
	6-8 Vegetation Management Methods and Procedures	6-11
	6-9 Litter Control	6-18
	6-10 Adopt-a-Highway	6-19
	6-11 Region Responsibilities.....	6-23
	6-12 Auxiliary Facilities	6-25
Chapter 7	Snow and Ice Control	7-1
	7-1 General	7-1
	7-2 Preparation for Winter Operations.....	7-1
	7-3 Treatment Levels and Goals.....	7-2
	7-4 Other Facilities.....	7-2
	7-5 Area of Responsibility.....	7-3
	7-6 Abandoned or Illegally Parked Vehicles.....	7-3
	7-7 City Streets on the State Highway System	7-3
	7-8 Operational Considerations.....	7-4
	7-9 Service Level Quality Measurement.....	7-9

Chapter 8	Traffic Services	8-1
	8-1 General	8-1
	8-2 Reconstruction Principles	8-1
	8-3 Signing	8-2
	8-4 Signing Responsibility	8-2
	8-5 Sign Installation	8-2
	8-6 Maintenance	8-3
	8-7 Sign Visibility	8-4
	8-8 Sign Storage and Transportation	8-4
	8-9 Delineation	8-5
	8-10 Pavement Markings	8-5
	8-11 Materials	8-6
	8-12 Application	8-7
	8-13 Surface Moisture Test	8-7
	8-14 Marking Renewal or Replacement Frequency	8-8
	8-15 Removal of Markings	8-8
	8-16 Guideposts	8-9
	8-17 Roadside Safety Hardware	8-9
	8-18 Maintenance	8-9
	8-19 Inspection – General	8-10
	8-20 Repair	8-10
	8-21 Inspection and Preventive Maintenance – Cable Barrier	8-11
	8-22 Standard Run of Barrier	8-11
	8-23 Terminals and Anchors	8-11
	8-24 Transitions	8-12
	8-25 Impact Attenuators	8-12
	8-26 Islands	8-13
	8-27 Transit Vehicle Stop Zones	8-13

Chapter 9	Electrical System Maintenance	9-1
	9-1 General	9-1
	9-2 Wiring and Connection Maintenance	9-1
	9-3 Enclosure Maintenance	9-1
	9-4 Documentation	9-2
	9-5 Dynamic (Variable) Message Sign Systems	9-2
	9-6 Drain Pump Systems.....	9-2
	9-7 Gate and Barrier Systems.....	9-2
	9-8 Flashing Beacon Systems (Includes Intersection Control Beacons).....	9-3
	9-9 Illumination Systems.....	9-3
	9-10 Services.....	9-4
	9-11 Signal Systems.....	9-4
	9-12 Sprinkler Systems	9-6
	9-13 Camera (CCTV) Systems.....	9-6
Chapter 10	Miscellaneous	10-1
	10-1 Right of Way Fences	10-1
	10-2 Road Approaches – General	10-1
	10-3 Typical Maintenance Responsibilities in Cities.....	10-2
	10-4 Maintenance Yards	10-2
	10-5 Stockpile Sites	10-3
	10-6 Materials From State Quarries or Pits	10-3
	10-7 Procurement of Materials	10-4
	10-8 Material Specifications – General.....	10-4
	10-9 Disposal of Surplus Items.....	10-4
	10-10 Instructions for Radio Operation	10-5
	10-11 Work Scheduling and Reporting	10-5
	10-12 Budget.....	10-5
	10-13 Scheduling	10-6
	10-14 Reporting	10-6
	10-15 Environmental Sensitivity.....	10-6

Chapter 11	Maintenance and Design Coordination	11-1
	11-1 General/Introduction	11-1
	11-2 Maintenance and Preservation Roles	11-1
	11-3 Communication and Coordination	11-2
	11-4 Practical Solutions for Practical Decision Making	11-3
	11-5 Asset Management	11-3
	11-6 Design and Build for Maintainability	11-4
	11-7 Examples of Maintenance Challenges	11-5
Appendix A	City Streets as Part of State Highways	A-1
Appendix B	Emergency Restrictions for Roads	B-1
	B-1 General	B-1
	B-2 Actions	B-2
	B-3 Signing Instructions	B-3
	B-4 Emergency Load Restrictions	B-4
	B-5 Severe Emergency Load Restrictions	B-4
