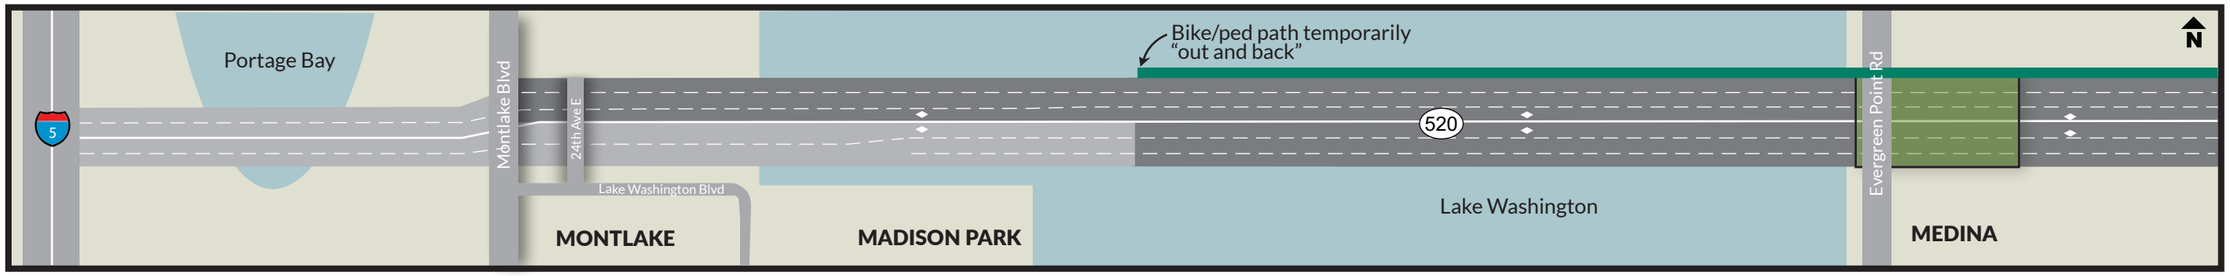
Keeping traffic flowing on SR 520 in phases

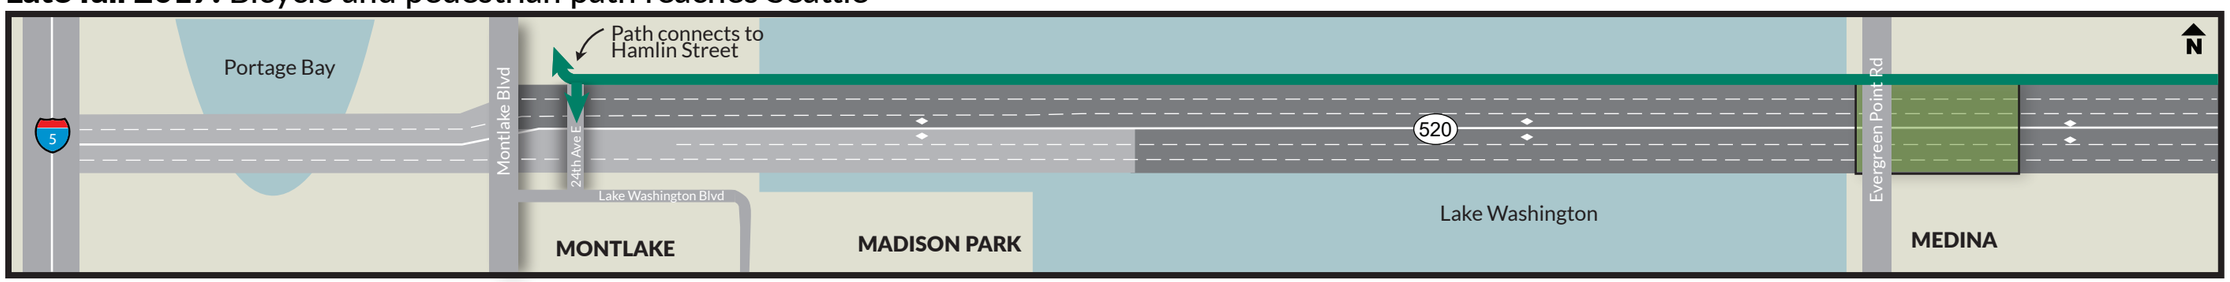
Drivers will experience several different traffic configurations in the SR 520 corridor as construction continues west

Notes:
- Illustrations of SR 520 mainline operations are shown. Interchanges are not detailed.
- Detailed traffic plans in future construction phases are subject to change.

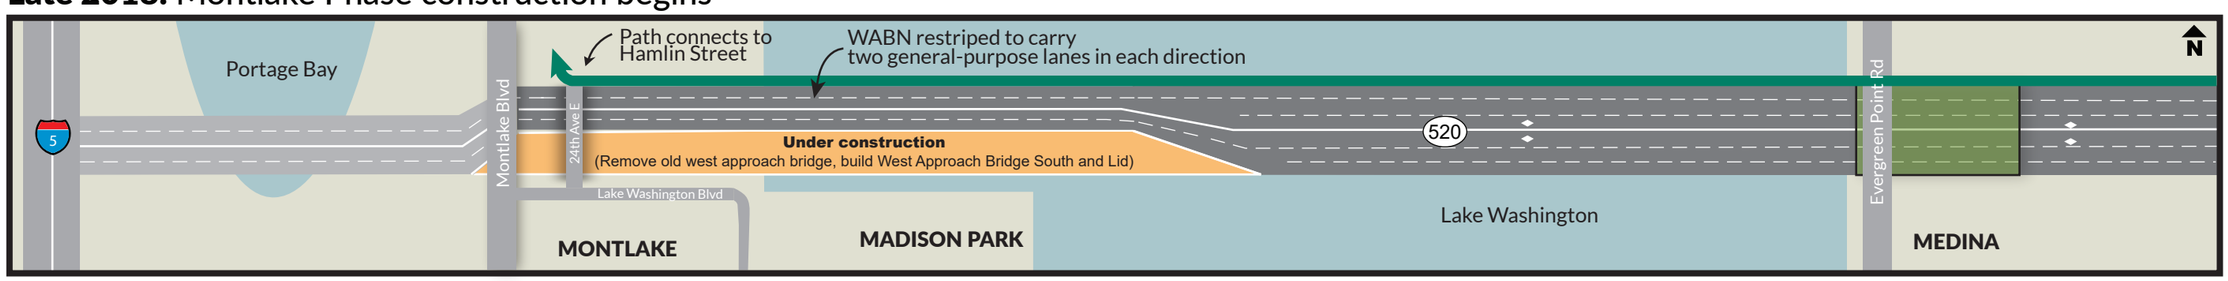
Current configuration: Westbound vehicles traveling on West Approach Bridge North



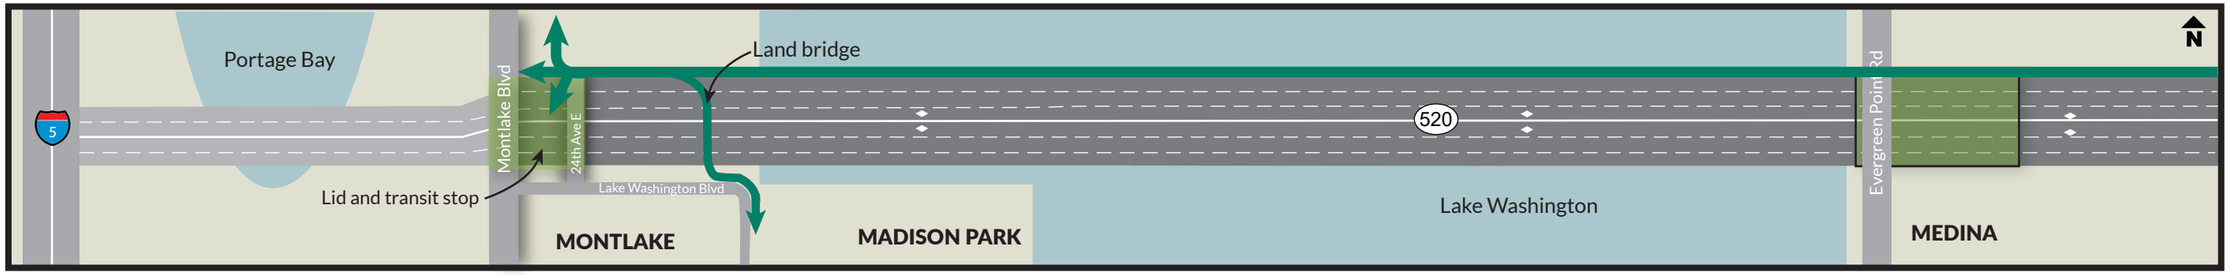
Late fall 2017: Bicycle and pedestrian path reaches Seattle



Late 2018: Montlake Phase construction begins



2022-2023 (approx): Montlake Phase construction complete



Mainline construction area | Old structure | New structure | Regional bicycle and pedestrian path
