Notice to Consultants
Stormwater Conveyance System Mapping

Washington State Department of Transportation (WSDOT) solicits interest from consultants interested in submitting a Statement of Qualifications (SOQ) to assist WSDOT with stormwater conveyance system mapping Statewide. One (1) agreement may be awarded. The agreement amount will be approximately \$4,543,000 with the option for WSDOT to supplement this contract for additional time and/or money. The agreement type will be Negotiated Hourly Rate.

WSDOT reserves the right to amend terms of the “Request for Qualifications” (RFQ) to circulate various addenda, or to withdraw the RFQ at any time, regardless of how much time and effort consultants have spent on their responses.

Project Description

WSDOT needs to understand its current MS4: what assets are currently in place, how they connect together to convey highway runoff, and where the water goes. Additionally, to support WSDOTs Stormwater Retrofit Program and Complete Streets initiative this same information is needed to understand the stormwater impacts and needs of future projects. Though WSDOT has an inventory crew responsible for this work within the NPDES Permit area, the new legislation expands the need statewide, and increases the need to get the systems mapped sooner. This project is to assist WSDOT with stormwater conveyance system mapping Statewide. Stormwater conveyance systems consist of a network of drainage inlets, pipes, ditches, stormwater treatment and flow control facilities, and other structures that direct and manage stormwater running off WSDOT property to a Discharge Point where it: discharges to surface water bodies; connects to municipal stormwater systems; or detains, or disperses, stormwater to infiltrate into the ground.

In light of the COVID-19 pandemic, Washington State Governor Jay Inslee has issued a Proclamation directing mandatory vaccination for all cabinet agency state employees, which includes WSDOT. This requirement extends to contractors who may be physically present on WSDOT owned, leased, or controlled property and right-of-way in the conduct of their work. Contractors will need to acknowledge, in writing, their acceptance of these terms as a condition of the contract. Please note that WSDOT has elected to implement the “Path Two” option within the Governor’s Vaccination Proclamation requirements. Under Path Two, contractors are required to

assume responsibility for the vaccination verification and accommodation requirements set forth in the Proclamation. Therefore, WSDOT contractors must certify that all employees of the contractor, and employees of any subcontractors, working “on site” comply with the terms and requirements of the Vaccine Mandate Proclamation. The mandate only applies to contract employees who are physically present on WSDOT property and does not apply to contractors working from locations which are not considered “on site.” The Governor’s Office has created a [resource website](#) that contains FAQ’s and information for complying with [Proclamation 21-14.1](#).
