

NPDES Bridge and Ferry Terminal General Permit

WSDOT Northwest Region Planned Steel Bridge Activities from 12/1/23 to 12/31/24

This table lists WSDOT's planned activities to be in compliance with permit conditions under the National Point Discharge Elimination System (NPDES) for Bridge Spot Painting (S4B), Routine Maintenance Cleaning and Washing (S4C), and Bridge Preparatory (Pre-Painting) Cleaning and Washing (S4D). Scheduling changes will be made as needed to keep this list current.

This NPDES permit only covers preparatory bridge painting activities that discharge waste water into waters of the state(S4D). WSDOT currently uses abrasive blasting with full containment to prepare bridges for painting and is not prep-washing them.

NW Region Contacts for Bridge Routine Maintenance Washing:

Primary: Kirk Tullar, Bridge Supervisor Office: 425-339-1778 (office)

Secondary: Andrew Gross, Regional Maintenance Environmental Coordinator: 206-406-8074 (cell)

NPDES Bridge and Ferry General Permit

WSDOT Olympic Region Planned Steel Bridge Washing Activities 12/1/23 to 12/31/24

This table lists WSDOT's planned activities to be in compliance with permit conditions under the National Point Discharge Elimination System (NPDES) for Bridge Spot Painting (S4B), Routine Maintenance Cleaning and Washing (S4C), and Bridge Preparatory (Pre-Painting) Cleaning and Washing (S4D). Scheduling changes will be made as needed to keep this list current.

This NPDES permit only covers preparatory bridge painting activities that discharge waste water into waters of the state(S4D). WSDOT currently uses abrasive blasting with full containment to prepare bridges for painting and is not prep-washing them.

Olympic Region Contacts for Bridge Routine Maintenance Washing:

Primary: Josh Peppers, Bridge Supervisor: 360-972-1743 (office)

Secondary: Paul Dreisbach, Regional Maintenance Environmental Coordinator: 360-485-3600 (cell)

NPDES Bridge and Ferry Terminal General Permit

WSDOT Southwest Region Planned Steel Bridge Activities from 12/1/23 to 12/31/24

This table lists WSDOT's planned activities to be in compliance with permit conditions under the National Point Discharge Elimination System (NPDES) for Bridge Spot Painting (S4B), Routine Maintenance Cleaning and Washing (S4C), and Bridge Preparatory (Pre-Painting) Cleaning and Washing (S4D). Scheduling changes will be made as needed to keep this list current.

This NPDES permit only covers preparatory bridge painting activities that discharge waste water into waters of the state(S4D). WSDOT currently uses abrasive blasting with full containment to prepare bridges for painting and is not prep-washing them.

Southwest Region Contacts for Bridge Routine Maintenance Washing:

NPDES Bridge and Ferry Terminal General Permit

WSDOT North Central Region Planned Steel Bridge Activities from 12/1/23 to 12/31/24

This table lists WSDOT's planned activities to be in compliance with permit conditions under the National Point Discharge Elimination System (NPDES) for Bridge Spot Painting (S4B), Routine Maintenance Cleaning and Washing (S4C), and Bridge Preparatory (Pre-Painting) Cleaning and Washing (S4D). Scheduling changes will be made as needed to keep this list current.

This NPDES permit only covers preparatory bridge painting activities that discharge waste water into waters of the state(S4D). WSDOT currently uses abrasive blasting with full containment to prepare bridges for painting and is not prep-washing them.

NPDES Bridge and Ferry Terminal General Permit

WSDOT South Central Region Planned Steel Bridge Activities from 12/1/23 to 12/31/24

This table lists WSDOT's planned activities to be in compliance with permit conditions under the National Point Discharge Elimination System (NPDES) for Bridge Spot Painting (S4B), Routine Maintenance Cleaning and Washing (S4C), and Bridge Preparatory (Pre-Painting) Cleaning and Washing (S4D). Scheduling changes will be made as needed to keep this list current.

This NPDES permit only covers preparatory bridge painting activities that discharge waste water into waters of the state(S4D). WSDOT currently uses abrasive blasting with full containment to prepare bridges for painting and is not prep-washing them.
