Information and Instructions for Prequalification of Bidders

Under the provisions of RCW 47.28.070 et seq. any person, firm, or corporation desiring to bid upon any construction or improvement of any state highway for the Department of Transportation is first required to execute and file with the Secretary of Transportation, a fully completed Standard Questionnaire and Financial Statement (DOT Form 420-010) and be prequalified before a proposal form can be furnished.

The laws of the State of Washington require that an out-of-state corporation secure authority from the Secretary of State to transact business in the State of Washington. Accordingly, before the state can enter into a contract with an out-of-state or foreign corporation, such corporation must comply with Washington's corporation laws. Information and application blanks may be obtained from:

Office of the Secretary of State http://www.sos.wa.gov/

Those contractors seeking prequalification in electrical classifications of work (class 9 and class 16) must provide photocopies of current State Electrical license.

It is suggested that your firm contact the Business and Professions Division to assure that all requirements for doing business in Washington State have been fulfilled. General licensing requirements information and forms are furnished by:

Department of Revenue - Business Licensing Services

http://www.bls.dor.wa.gov/

Joint Ventures for Pregualification

The Department of Transportation recognizes two distinct types of joint ventures, for bidding (Prequalification), classified as follows:

- 1. **Continuing Joint Venture**: An association of two more firms formed for the purpose of submitting joint bids for projects to be let over a period of time.
- 2. **Individual Project Joint Venture**: An association of two more prequalified firms formed for the specific purpose of submitting a joint bid on a specific project.

Prequalification of Individual Project Joint Ventures

The bids of individual project joint ventures will be accepted provided all members of the joint venture are currently prequalified. They must execute and file with the Secretary of Transportation, subject to approval, a standard form of "Individual Project Statement of Joint Venture," (DOT Form 410-009) setting forth the name of the joint venture, the members of the joint venture, the title of the improvement and the names of those authorized to bind the joint venture. (Corporate minutes authorizing a joint venture must accompany the joint venture for prequalification).

Individual Project Statement of Joint Venture Forms (DOT Form 410-009) are available at: http://www.wsdot.wa.gov/biz/contaa/prequal/

Pregualification of Continuing Joint Ventures

The bids of continuing Joint Ventures will be accepted if prequalification has been satisfactorily established by the following method:

A Standard Questionnaire and Financial Statement combining the assets and liabilities of all members of the venture shall be submitted in the name of Joint Venture, together with such other supporting documents as listed below:

A photostatic or certified copy of the Joint Venture Agreement shall be furnished. It shall contain a provision which will unequivocally bind the parties, jointly, and severally, to any joint venture entered into thereunder. It shall also specify the name under which the Joint Venture will operate and the name of those authorized to sign proposals, bonds, contracts, estimates, and other documents and/or instruments in connection with the Department of Transportation's contracts. Since some Joint Ventures may present unique problems, the foregoing will not necessarily be sufficient in all cases. Corporate minutes authorizing a joint venture must accompany the joint venture requests for prequalification.

Execution of Continuing Joint Venture Agreement

Members of a Continuing Joint Venture will be considered bound to it through the following applicable procedures:

Individual: Signature to the Joint Venture Agreement in the firm name under which he is doing business.

Co-Partnership: The signature of all partners, general and limited, under the firm name, to the Joint Venture Agreement.

Corporation: The signature of the authorized officer of the corporation with the corporate seal affixed. A certified

copy of the resolution of the board of directors adopting the Joint Venture and authorizing the signatory to enter into a Joint Venture Agreement on behalf of the corporation shall accompany the agreement. If the resolution is made at a special meeting of the board of directors, a certified copy of the notice of the

meeting or a waiver thereof shall also be furnished.

Procurement of Plans and Proposals

All requests for plans and proposal forms should be requested from the following website: https://www.wsdot.wa.gov/business/contract-ad-award/order-plans. Bids submitted from a firm without proper prequalification will not be accepted.

Electronic copies of the Plans & Specifications and an "Informational" copy of the proposal, which cannot be used for bidding purposes that are currently on Ad can be found at: http://www.wsdot.wa.gov/biz/contaa/Contracts/default.htm or reduced plans (12" x 18") and an "Informational" copy of the proposal, which cannot be used for bidding purposes, will be furnished to all applicants upon receipt of the fee as set forth in the Notice to Contractors. Proposal forms for bidding will be furnished to an applicant only if prequalified in the proper amount and class of work.

CAUTION

The proposal form furnished to a prospective bidder is not transferrable and may be considered irregular if the name entered thereon is altered in any manner without first receiving permission. Correspondence and inquiries should be directed to the Manager, Contract Ad & Award.

Please indicate if your company is interested in being

Supplemental Questionnaire

placed on the Small Works Roster.

Yes

A bidder who has a Standard Questionnaire and Financial Statement (DOT Form 420-010) on file with the Department of Transportation will be required to renew prequalification annually by filing any amendatory information through the submission of a Supplemental Questionnaire. In the event a contractor, during the period of a year, should have a change in the structure of the firm, e.g. officer, ownership, incorporation, etc., or when required by the department, shall submit a Supplemental Questionnaire.

WAC 468-16-090 specifies that for a firm showing a net worth in excess of one hundred thousand dollars (\$100,000), the applicant must provide, with the questionnaire, a copy of its financial statement as audited or reviewed for its last fiscal year, prepared in accordance with the standards of the American Institute of Certified Public Accountants. The statement must be prepared by an independent certified public accountant registered and licensed under the laws of any state. Balance sheets, income statements, a statement of retained earnings, supporting schedules and notes, and the opinion of the independent auditor must accompany the financial statement.

Period Pregualification

The information contained in the Supplemental Questionnaire is used to renew the basic rating on an annual basis and the firm will be so notified annually as to their bidding status for the ensuing year. The bidding rate may be renewed annually, effective March 31, June 30, September 30, or December 31 as outlined in WAC 468-16-090.
