

# TrafFix Super Buster Sign Stand

**NEW**

Approved with Roll-Up and Safe Sign-350 Signs at any height and with

.080, .100 and .125 Aluminum or 5/8" Plywood signs at 7' bottom height

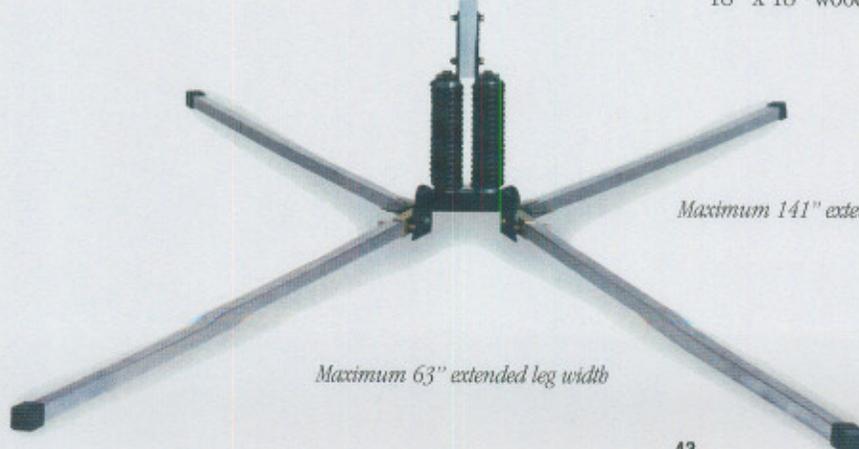

The Super Buster Sign Stand has a powder coated steel base and two heavy duty springs, designed to withstand strong winds and severe wind gusts created by passing traffic. Both the lightweight aluminum mast and legs telescope for compact storage and site specific adjustments.

Super Buster can accommodate a 48" x 60" and 48" x 48" or smaller 5/8" plywood signs, or .080, .100 and .125 aluminum, Plastic or Roll-Up signs up to 7' off the ground.

Super Buster also comes complete with TrafFix Step-n-Drop leg release system found on all TrafFix 4 legged Sign Stands. A two position leg adjustment allows all four legs to be individually adjusted for uneven terrain. The built in Flag Bracket will accept standard 18" x 18" wooden dowel flags.
