

## **MAP Team Goals and Objectives**

To fulfill the MAP Team mission outlined in our [charter](#) (pdf 241 kb), we strive to meet the following goals:

### **Goal 1: Permitting Predictability**

Issue all permit decisions within a timeframe that:

- Does not delay the contract advertisement date for the project.
- Meets MAP Team resource agency permit process timeline statutes.

### **Goal 2: Inter-Agency Early Project Coordination**

Provide WSDOT with effective early technical and regulatory guidance and feedback that:

- Assists WSDOT in making critical design and environmental decisions before the project footprint is set.
- Assists WSDOT in developing complete permit applications.

### **Goal 3: Inter-Agency Accessibility**

Be responsive and available to help WSDOT resolve permitting issues quickly.

### **Goal 4: Inter-Agency Relationships**

Maintain and strengthen the working relationships between MAP Team resource agencies and WSDOT.

### **Goal 5: Effective Environmental Protection and Mitigation**

- Provide the MAP Team with demonstration of avoidance and minimization of impact to aquatic resources with permit application submittal.
- Provide WSDOT with effective technical and regulatory guidance and feedback that assists WSDOT in selecting, designing and constructing project mitigation sites.
