# How much will citizens get back for each state transportation dollar compared to what they will contribute until 2017? • Fourteen-year Look - Fiscal Years 2004–2017

## Puget Sound area compared to the rest of the state, regions

### 2005 Transportation Funding Package

Many revenue sources are not collected at the county level. Gas tax is collected at the wholesale level, not at the retail level. Interest earnings are based on fund balances in the state treasury and are not contributed directly by Washington citizens. Not all of the funds have been earmarked for specific project expenditures. The grant programs for public transit, TIB and CRAB are assigned to projects through a variety of selection processes.
