

Amtrak Cascades Population Densities and Passenger On-Offs

Amtrak Cascades Population Density and Service Areas

Existing Stops and 2010/2011 Population Density

People per square mile¹

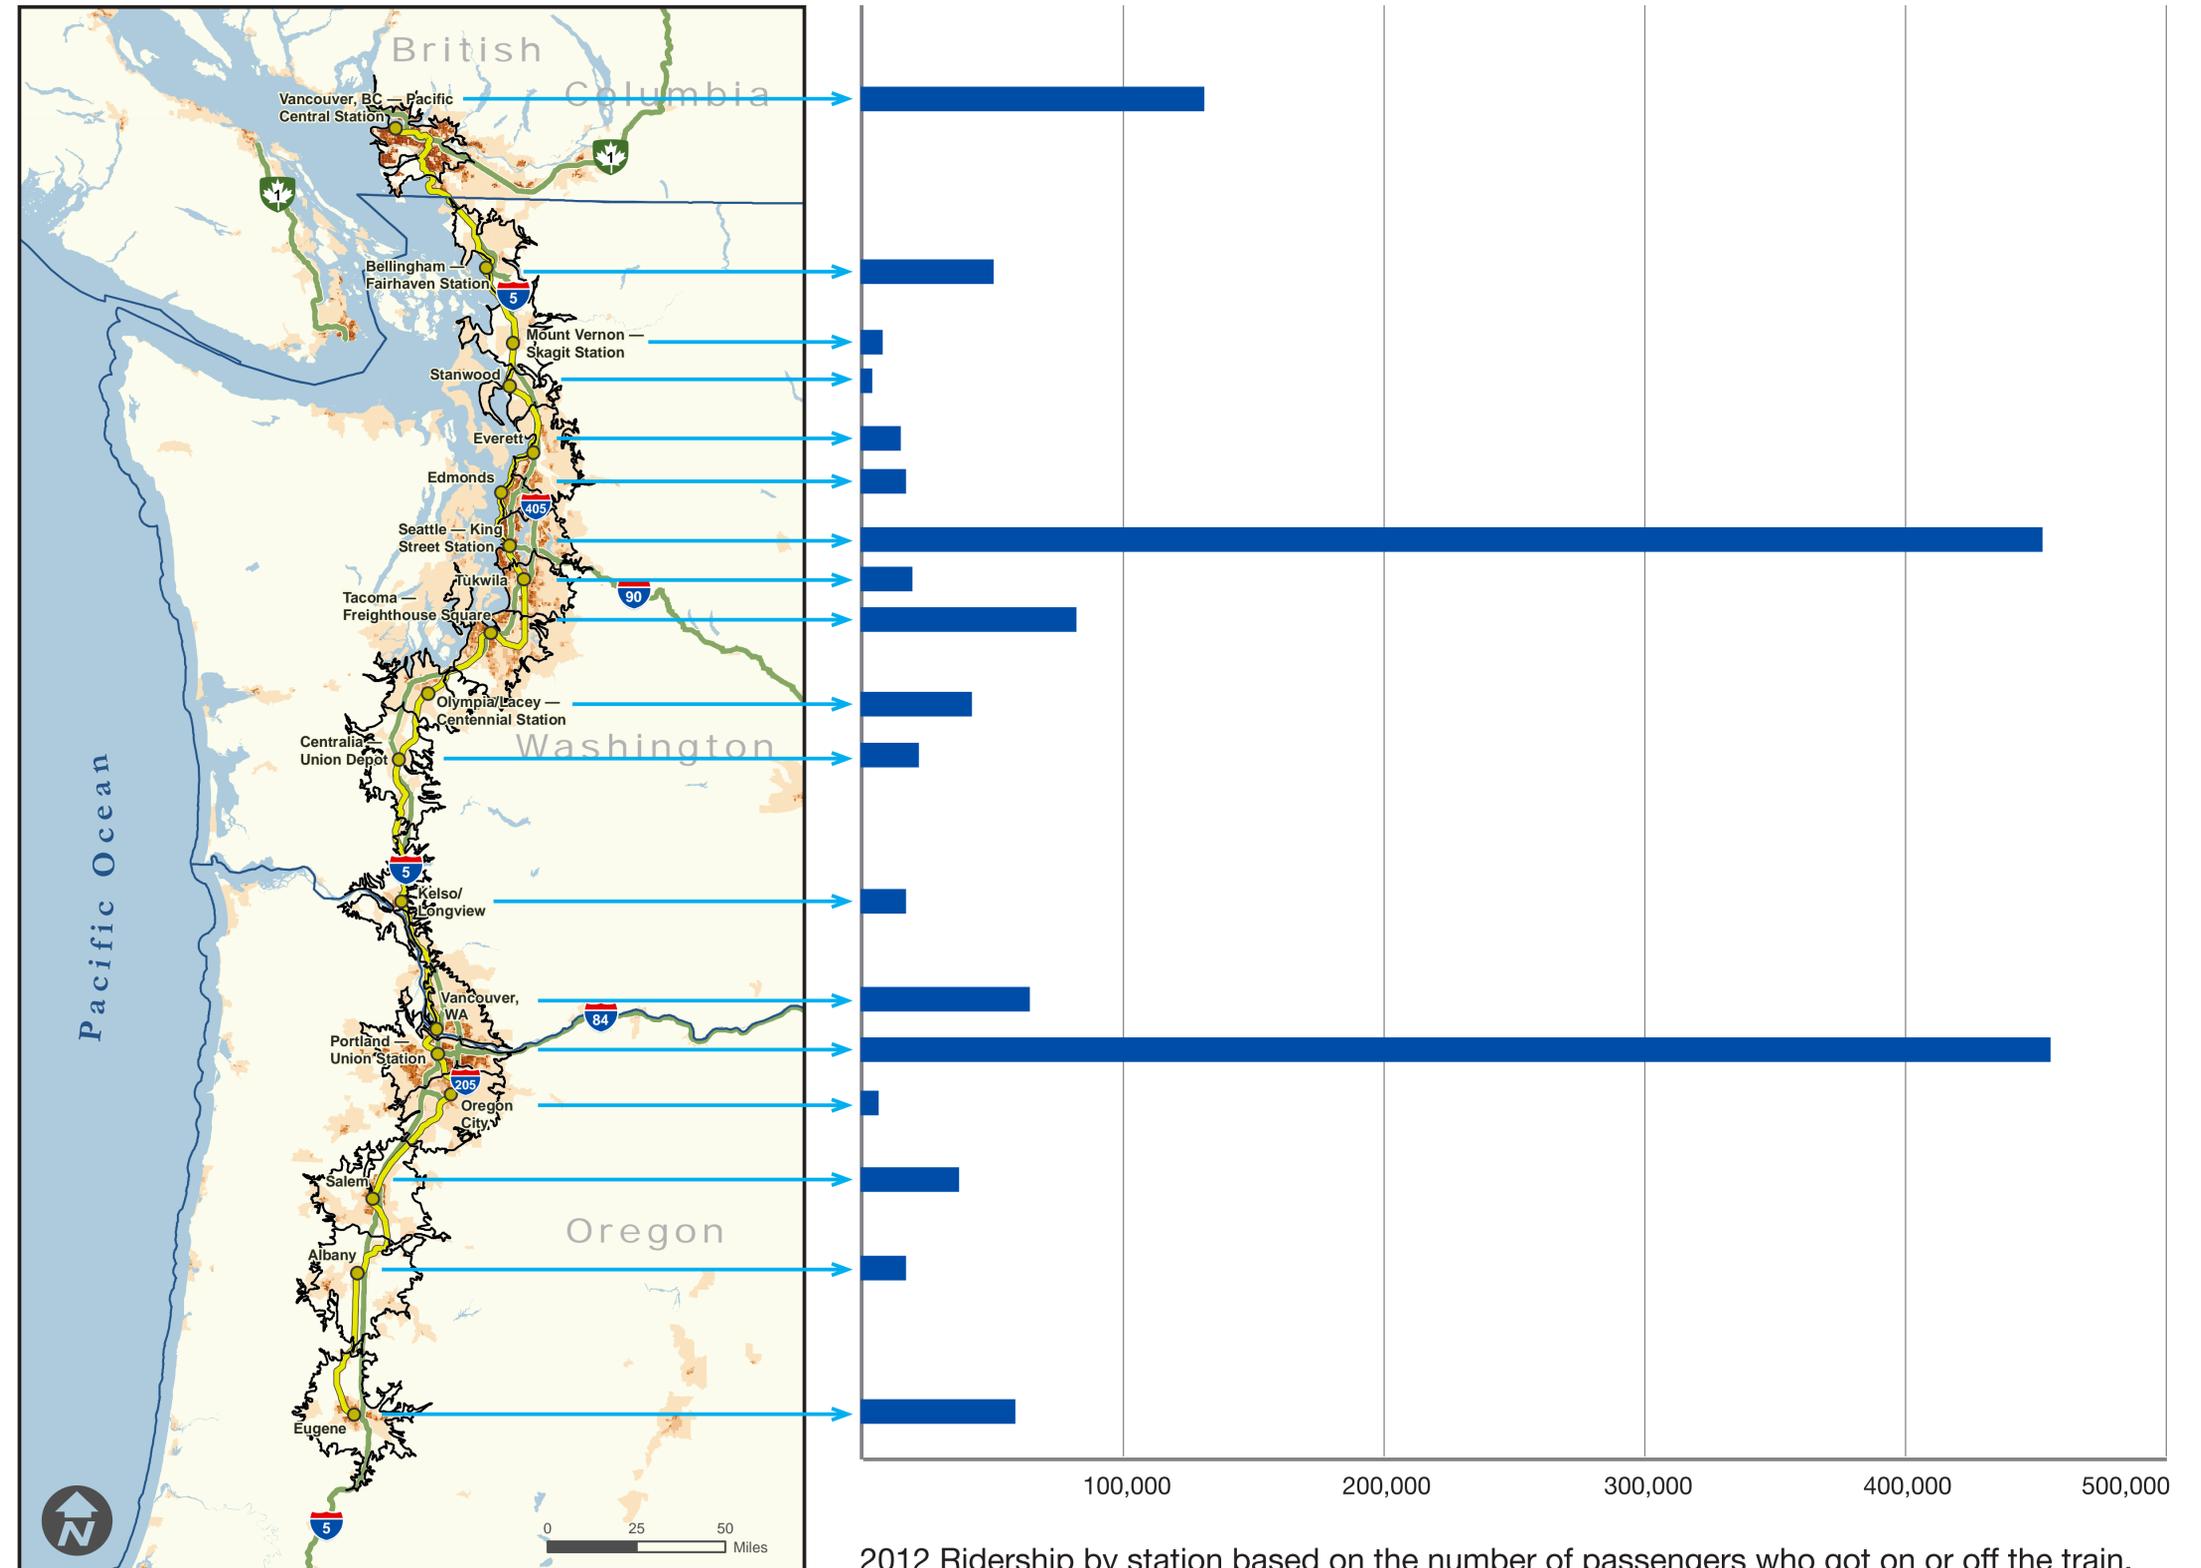

- 0 - 100
- 100 - 2,000
- 2,000 - 4,000
- 4,000 - 6,000
- 6,000 - 8,000
- over 8,000

¹ Population density derived from 2010 US Census and 2011 Statistics Canada.

 30-minute drive time to nearest station²

-  Amtrak Cascades rail station
-  Amtrak Cascades rail corridor
-  State/country boundary

² Rail station drive times were calculated using ESRI StreetMap North America 2012 data with standard impedances.

2012 Ridership by station based on the number of passengers who got on or off the train.
