Notice to Consultants
On-Call Geotechnical Instrumentation Services***

The Washington State Department of Transportation (WSDOT) solicits interest from consulting firms who wish to submit a Statement of Qualifications to provide services related to On-Call Geotechnical Instrumentation. WSDOT may award one (1) agreement for approximately \$350,000.00. The duration of this scope of services is estimated to be approximately 5 years. At any time during the contract duration additional work may be necessary. At WSDOT's option, the contract may be extended for additional time and/or money.
