

# I-405, South Bellevue Widening Project

## NOTICE: Construction at Lk. Wash. Loop Trail till Sept.

### JULY 2009

Thank you for your patience as WSDOT and our design-build contractor, Guy F. Atkinson Construction, LLC, build the I-405 South Bellevue Widening Project, also known as the 112<sup>th</sup> Avenue SE to SE Eighth Street Project. The project is adding lanes between 112<sup>th</sup> Ave SE and SE Eighth Street in Bellevue.

### PROJECT TO IMPROVE ENVIRONMENT

As part of the project, we are installing a runoff filtration area near the southbound I-405 on-ramp from Coal Creek Parkway and the Lake Washington Loop Trail. This will filter highway runoff before it is tested and released to Lake Washington, improving the environment for people and aquatic life.

The drainage project includes several new retaining walls.

### EXPECT BRIEF DELAYS, WATCH FOR CONSTRUCTION VEHICLES

While crews build the walls and the runoff filtration area, trail users may experience momentary delays and flaggers:

Monday – Friday  
7 a.m. – 5 p.m.

For your own safety and that of work crews, please follow flaggers' direction.

Work is expected to wrap up by the end of September, weather-permitting.

### WHAT'S IN IT FOR DRIVERS?

New lanes both north- and southbound on I-405 will result in faster travel for drivers and congestion relief at one of the worst I-405 bottlenecks – the drive into and out of downtown Bellevue.
