APPENDIX D

Select Valley Cross-Sections
This page intentionally left blank.
Figure D-1. Clallam River 2005 lidar hillshade, river and Highway 112 alignments and profiles, and cross-section locations.
This page intentionally left blank
Figure D-2. Pysht River 2005 lidar DEM hillshade, river and Highway 112 alignments and profiles, and cross-section locations.

Note: The road length has been normalized by the river distance to allow projection on the same horizontal axis. The vertical distance between the river and the highway is accurate throughout the projection.
Problem Site P-2, Pysht River

- North Valley Edge
- Highway 112
- South Valley Edge
- Pysht River Channel
- Flow

Distance (feet) vs. Elevation (feet) graph for Problem Site P-2, Pysht River.
