

I-90: I-405 (Bellevue) to SR 900 (Issaquah) – Average Weekend

Corridor Performance

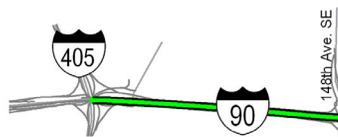

- Weekend general purpose lane volumes are significantly lower than weekday volumes during all time periods. Average speeds in the general purpose lanes are at or above the posted limit throughout the day.
- HOV traffic operates with a high level of speed and reliability and relatively low volumes for all hours of the day on the weekend. Weekend HOV volumes exceed weekday HOV volumes during the midday and evening.
- King County Metro operates one route in this corridor on weekends. Complete ridership data was not available.
