Subject: City of Morton Access Management Plan

Hi Karena,

A consultant working with the City of Morton on their access management plan called me to give a status update. They have submitted to the city of Morton their access management plan. The City Council will be in session on Monday and reviewing it as it is one of the items on their agenda. They may not be done with their review before the end of the year. That's why he called to let us know that it is in work but may not be completely adopted by the end of the year.

The progress chart (11/14/2008) shows that Morton has not responded. We have been in contact with them since 2007 and as recently as two months ago to train them on access management.

If I may be of any more assistance please feel free to ask.

Thank you,

Mike
