

US-195 Intersection Speed Comparison. POSTED SPEED 55 MPH

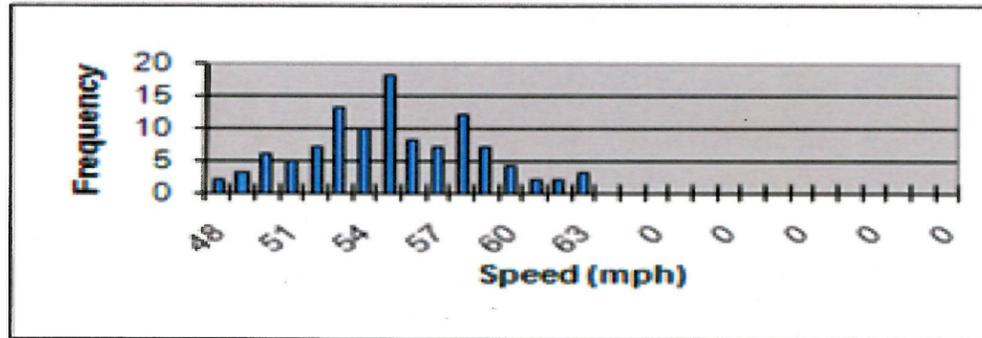

Shown in percentile speeds. Percentile speeds represent the percentage of vehicles traveling that speed or below. For example, the 85th percentile speed is the speed that 85 out of 100 vehicles travel at or below.

A typical posted speed limit is approximately the 85th percentile speed.

The graphs show the lowest to fastest speeds recorded.

The 15%, 85% and 95% is based on the total numbers of vehicles observed during the engineering speed study.

Hatch Road	15% Speed	85% speed	95% Speed
Northbound 109 vehicles observed	51 MPH	58 MPH	61 MPH

Meadowlane Road	15% Speed	85% Speed	95% Speed
Northbound 105 vehicles observed	53 MPH	59 MPH	61 MPH
