

TABLE OF CONTENTS

Acronyms and Abbreviations	ix
Glossary of Terms.....	xi
CHAPTER 1 Executive Summary	1-1
Where is the Tukwila to Renton Project located?	1-1
What is the Tukwila to Renton Project?	1-1
Why is WSDOT proposing to build this project?	1-2
When will construction begin and how long will it take?.....	1-2
How will the project affect the environment?.....	1-2
What is the purpose of this Environmental Assessment?	1-6
How is this document organized?	1-7
CHAPTER 2 Need for the Project.....	2-1
Why do we need the Tukwila to Renton Project?	2-1
How does the I-405 Corridor Program relate to the Tukwila to Renton Project?.....	2-2
What led WSDOT to propose the Tukwila to Renton Project?.....	2-2
What would happen if the Tukwila to Renton Project is not built?.....	2-3
What other improvements are being built on I-405 and connecting highways?	2-3
CHAPTER 3 Developing the Alternatives	3-1
What actions did WSDOT take prior to proposing the Tukwila to Renton Project?.....	3-1
How did WSDOT identify the improvements included in the Tukwila to Renton Project?....	3-2
What alternatives are studied in this Environmental Assessment?.....	3-2
What environmental issues influenced project design?	3-4
How has the public been involved?	3-7
What public outreach is planned for the Tukwila to Renton Project?.....	3-8
What special efforts did WSDOT make to reach minority, low-income, and non-English speaking individuals?	3-9
How has WSDOT involved government agencies?	3-9
How has WSDOT involved tribal governments?	3-11
CHAPTER 4 Description of the Proposed Project.....	4-1
What is the intent of the Tukwila to Renton Project?.....	4-1

What are the details of the Tukwila to Renton Project?.....	4-1
What benefits will this project provide?	4-23
How will this project incorporate community design preferences?.....	4-24
How will stormwater be managed?	4-25
How will the project be constructed and implemented?.....	4-26
What is the construction schedule?	4-27
CHAPTER 5 Effects of the Project	5-1
How did WSDOT evaluate effects on the environment?	5-2
How did WSDOT use environmental information to improve this project?	5-2
Did some environmental topics show only negligible effects?	5-2
What federal, state, and local laws and regulations govern the project?.....	5-5
CHAPTER 5.1 Traffic and Transportation	5-11
How did WSDOT evaluate traffic and transportation data for this project?.....	5-11
What is traffic like now along I-405 and what will it be like in the future?.....	5-12
How will the completed project affect traffic on I-405?.....	5-13
How will the completed project affect local arterials and streets?.....	5-14
How will the completed project affect freight movement?.....	5-14
How will the completed project affect safety?	5-14
How will the completed project affect transit and HOVs?	5-15
How will the completed project affect bicycle and pedestrian facilities?	5-16
How will travel be affected during construction?.....	5-16
What would traffic be like if WSDOT did not build the project?.....	5-17
CHAPTER 5.2 Noise	5-19
How did WSDOT evaluate noise levels for this project?	5-19
How noisy is the study area?.....	5-20
How will construction activities affect noise levels?.....	5-20
How will noise levels change after the project is completed?	5-20
What would future noise levels be like if WSDOT did not build this project?	5-23
CHAPTER 5.3 Communities, Businesses, and Public Services.....	5-25
What economic and social data did WSDOT evaluate for this project?.....	5-25
Who lives and works in the study area?.....	5-26

What communities, businesses, and services are located in the study area?	5-26
Will any properties be acquired?	5-27
Will any public services be displaced?.....	5-37
How will construction activities affect communities, businesses, and services?.....	5-38
How will the completed project affect communities, businesses, and services?	5-38
How will the project affect minority and low-income populations?.....	5-38
What would happen to these communities, businesses, and services if WSDOT did not build this project?	5-38
CHAPTER 5.4 Recreational and Cultural Resources	5-39
How did WSDOT identify and evaluate recreational and cultural resources in the study area?	5-39
What is Section 4(f) and what constitutes a use of a Section 4(f) resource?.....	5-40
What is a Section 6(f) resource?.....	5-42
What is a Recreation and Conservation Funding Board investment property?	5-42
What recreational resources are located in the study area?.....	5-43
What historic and cultural resources are located in the study area?	5-45
How will construction activities affect recreational and cultural resources?.....	5-46
How will the completed project affect the recreational and cultural resources?.....	5-50
What would happen to the recreational and cultural resources if WSDOT did not build this project?	5-50
CHAPTER 5.5 Visual Quality.....	5-51
How did WSDOT evaluate visual resources for this project?	5-51
What views can people currently see in the study area?.....	5-51
What project features will have noticeable effects on visual quality?	5-52
How will the completed project affect what people see?	5-53
What would happen to visual resources if WSDOT did not build this project?.....	5-56
CHAPTER 5.6 Water Resources.....	5-57
How did WSDOT evaluate water resources for this project?	5-57
What water resources are found in the study area?.....	5-59
How will construction activities affect water resources?	5-63
How will the completed project affect water resources?.....	5-65

What would happen to water resources if WSDOT did not build this project?	5-68
CHAPTER 5.7 Ecosystems	5-71
How did WSDOT identify and evaluate ecosystems in the study area?	5-71
What ecosystems are located in the study area?.....	5-73
How will project construction temporarily affect ecosystems?.....	5-83
How will the completed project permanently affect ecosystems in the study area?	5-86
How will project operation affect ecosystems in the study area?	5-90
What would happen to the ecosystems if WSDOT did not build this project?.....	5-90
CHAPTER 5.8 Design Options	5-93
What design options are proposed for this project?	5-93
What effects would each of the two design options have?	5-93
How will WSDOT compensate for any adverse effects?	5-96
What is the preferred design option?.....	5-96
CHAPTER 5.9 Cumulative Effects	5-99
What are cumulative effects and why do we study them?.....	5-99
How does this cumulative effects analysis relate to the analysis in the I-405 Corridor Program Final EIS?	5-100
What time and geographic boundaries did WSDOT use for this analysis?	5-100
How did WSDOT identify other projects to include in this analysis?.....	5-101
What is the history of the environmental resources WSDOT evaluated for this analysis? ..	5-102
How will construction of this project contribute to cumulative effects?	5-106
How will the completed project contribute to cumulative effects?	5-108
What would happen if WSDOT did not build this project?	5-109
CHAPTER 6 Measures to Avoid or Minimize Effects	6-1
What measures will be taken to avoid or minimize effects?.....	6-1
CHAPTER 7 List of Preparers.....	7-1
CHAPTER 8 References	8-1
GIS sources.....	8-1
Text references and verbal communications.....	8-3

EXHIBITS

Exhibit 1-1: Project Vicinity Map	1-1
Exhibit 2-1: I-405 Corridor	2-2
Exhibit 4-1: Project Features, Sheet 1	4-2
Exhibit 4-2: Project Features, Sheet 2	4-4
Exhibit 4-3: SR 181 Interchange Improvements	4-5
Exhibit 4-4: Project Features, Sheet 3	4-6
Exhibit 4-5: Project Features, Sheet 4	4-8
Exhibit 4-6: Project Features, Sheet 5	4-10
Exhibit 4-7: Project Features, Sheet 6	4-12
Exhibit 4-8: Freeway to Freeway Ramps in Reconstructed I-405/SR 167 Interchange	4-13
Exhibit 4-9: Rendering of I-405/SR 167 Interchange Improvements	4-14
Exhibit 4-10: Split-Diamond Interchange at Lind Avenue and Talbot Road	4-15
Exhibit 4-11: Project Features, Sheet 7	4-16
Exhibit 4-12: Project Features, Sheet 8	4-18
Exhibit 4-13: Mill Avenue Design Option for Local Access to Bronson Way	4-20
Exhibit 4-14: Main Avenue Design Option for Local Access to Bronson Way	4-21
Exhibit 4-15: New Local Access for Renton Hill	4-22
Exhibit 5-1: Regulatory Framework	5-6
Exhibit 5-2: Vehicles and Persons Traveling Through the I-405/SR 167 Interchange During the Busiest 10 Hours	5-13
Exhibit 5-3: Location of Noise Barrier 8	5-21
Exhibit 5-4: Location of Noise Barrier 10	5-22
Exhibit 5-5: Noise Barrier East 5 Modification	5-23
Exhibit 5-6: Tukwila and Renton Neighborhoods in the Study Area	5-27
Exhibit 5-7: Property Acquisitions that Require Relocation	5-28
Exhibit 5-8: Property Acquisitions, Sheet 1	5-29
Exhibit 5-9: Property Acquisitions, Sheet 2	5-30
Exhibit 5-10: Property Acquisitions, Sheet 3	5-31
Exhibit 5-11: Property Acquisitions, Sheet 4	5-32

Exhibit 5-12: Property Acquisitions, Sheet 5	5-33
Exhibit 5-13: Property Acquisitions, Sheet 6	5-34
Exhibit 5-14: Property Acquisitions, Sheet 7	5-35
Exhibit 5-15: Property Acquisitions, Sheet 8	5-36
Exhibit 5-16: Parking Loss.....	5-37
Exhibit 5-17: Section 6(f) Resources and RCFB Investment Properties	5-42
Exhibit 5-18: Park, Trail, and Recreation Areas Compared Against Section 4(f) Criteria.....	5-43
Exhibit 5-19: Potential Section 4(f) Resources Identified in the Study Area	5-44
Exhibit 5-20: Inset, Potential Section 4(f) Resources Identified in the Study Area.....	5-45
Exhibit 5-21: Historic Properties Compared Against Section 4(f) Criteria.....	5-45
Exhibit 5-22: Impact Area at Duwamish-Green River Trail Trailhead	5-47
Exhibit 5-23: Tukwila to Renton Project Topographic Viewshed	5-52
Exhibit 5-24: Summary of Potential Visual Quality Effects.....	5-54
Exhibit 5-25: Viewpoint Locations	5-55
Exhibit 5-26: Visual Change of Southbound I-405 from a Driver’s Perspective (Viewpoint F1).....	5-56
Exhibit 5-27: Visual Change of Southbound SR 167 from a Pedestrian’s Perspective (Viewpoint T8).....	5-56
Exhibit 5-28: Water Resources in the Study Area	5-60
Exhibit 5-29: Floodplains in the Study Area.....	5-62
Exhibit 5-30: The Delta Aquifer, a Part of the Cedar Valley Aquifer.....	5-63
Exhibit 5-31: Flow Control Facilities Proposed for the Tukwila to Renton Project	5-66
Exhibit 5-32: Floodplain Fill Volumes for each Subbasin.....	5-67
Exhibit 5-33: The Aquifer Protection Zones for the Delta Aquifer.....	5-69
Exhibit 5-34: Tukwila to Renton Project Wetlands Sheet 1	5-74
Exhibit 5-35: Tukwila to Renton Project Wetlands Sheet 2	5-75
Exhibit 5-36: Tukwila to Renton Project Wetlands Sheet 3	5-76
Exhibit 5-37: Fish Bearing Culverts owned by WSDOT and Associated with In-water Work	5-78
Exhibit 5-38: Anadromous Fish Species Known or Presumed to be in the Study Area.....	5-79
Exhibit 5-39: Resident Fish Species Known or Presumed to be in the Study Area.....	5-80
Exhibit 5-40: Baseline Land Cover In the Study Area.....	5-82

Exhibit 5-41: Summary of Temporary Wetland Effects	5-84
Exhibit 5-42: Summary of Temporary Aquatic Resource Effects	5-85
Exhibit 5-43: Potential Temporary Land Cover Loss In the Study Area	5-86
Exhibit 5-44: Summary of Permanent Wetland Effects.....	5-87
Exhibit 5-45: Summary of Permanent Aquatic Resource Effects.....	5-89
Exhibit 5-46: Potential Permanent Land Cover Loss In the Study Area	5-89
Exhibit 5-48: Comparison of Effects between the Mill Avenue and Main Avenue Design Options.....	5-94
Exhibit 5-47: Main Avenue Design Option Property Acquisitions.....	5-93
Exhibit 5-49: Greenhouse Gas Emissions for 1990 and 2005.....	5-103

APPENDICES

Note: Appendices E through S are separate documents available on the CD that comes with this document.

APPENDIX A Project Benefits

APPENDIX B Agency and Tribal Correspondence

APPENDIX C Section 106 Programmatic Agreement

APPENDIX D SR 515 (Talbot Road) Interchange Project

APPENDIX E Air Quality Discipline Report

APPENDIX F Cultural, Historic, and Archaeological Technical Memorandum

APPENDIX G Cumulative Effects Analysis Technical Memorandum

APPENDIX H Economics Technical Memorandum

APPENDIX I Ecosystems Discipline Report

APPENDIX J Environmental Justice Discipline Report

APPENDIX K Geology and Soils Technical Memorandum

APPENDIX L Hazardous Materials Technical Memorandum

APPENDIX M Land Use Discipline Report

APPENDIX N Noise Discipline Report

APPENDIX O Draft Section 4(f) Evaluation

APPENDIX P Social, Public Services, and Utilities Technical Memorandum

APPENDIX Q Transportation Discipline Report

APPENDIX R Visual Quality Technical Memorandum

APPENDIX S Water Resources Discipline Report
