### Notes:

\*Anacortes/San Juans counts include San Juan interisland sailings.

\*Anacortes/Sidney, B.C., counts include Friday Harbor/Sidney, B.C.

\*Accumulated delays are delays later in the day caused by an earlier incident, such as medical, weather, mechanical, or traffic preventing the vessel from catching up to the printed schedule.

\*Examples of other departure delays are: Vessel congestion at dock, vessel propulsion system, drills, customs delay, terminal dock closure, rescue incident, vessel auxiliary system, etc.

\* The slower operating speed of the M/V Evergreen State (returned to service from retirement status) has affected OTP on the FVS routes during the month of December.

\* Ongoing construction along the Seattle waterfront is causing vehicle congestion and affecting OTP on the Seattle routes.
