

**Table of Contents**

**NEPA Fact Sheet** . . . . . **i**

**Acronyms and Abbreviations** . . . . . **v**

**Table of Contents** . . . . . **vii**

**List of Exhibits** . . . . . **xi**

**Executive Summary** . . . . . **xiii**

**Chapter One Introduction to the Project, and Its Purpose and Need**

    What Is the History of the US Highway 12 Wallula to Frenchtown Vicinity Project? . . . . . 1-1

    Where Is the Project Located and How Much Will It Cost?. . . . . 1-4

    What Is the Purpose of the Wallula to Frenchtown Vicinity Project? . . . . . 1-4

    Why Do We Need the Wallula to Frenchtown Vicinity Project? . . . . . 1-4

        To Improve Safety of the Traveling Public . . . . . 1-5

        To Improve Capacity and Mobility. . . . . 1-6

    Why Is WSDOT Preparing This Environmental Assessment? . . . . . 1-8

    Who Else Participated in Developing This EA? . . . . . 1-9

    How Was the Preferred Alternative Identified? . . . . . 1-10

    How Has the WSDOT Kept the Public Informed? . . . . . 1-10

    What Are the Next Steps in This Environmental Process? . . . . . 1-11

    What Information Is Contained in This EA? . . . . . 1-11

**Chapter Two Project Alternatives**

    Where Does the Project Begin and End? . . . . . 2-1

    What Alternatives Were Considered for This Project? . . . . . 2-2

Alternative 1: The No Build Alternative . . . . .	2-2
Alternative 2: Widen the Existing US 12 . . . . .	2-2
Alternative 3: Wallula to Frenchtown Vicinity (North Alignment) . . . . .	2-4
Alternative 4: Wallula to Frenchtown Vicinity (Middle Alignment). . . . .	2-5
What Criteria Were Used for Assessing the Preliminary Alternatives? . . . . .	2-6
Which Alternatives Were Eliminated from Further Study and Why? . . . . .	2-7
Which Alternatives Were Selected for Further Study and Why? . . . . .	2-10
What Would Happen If Nothing Were Built?. . . . .	2-10
What Is the Preferred Alternative? . . . . .	2-11

**Chapter Three The Environment: What Is There Now, Project Effects, Commitments and Mitigation**

How Does an Environmental Assessment Analyze Effects to Social, Economic, and Environmental Resources?. . . . .	3-1
To What Degree Were Social, Economic, and Environmental Resources Analyzed? . . . . .	3-1
For What Area Were Social, Economic, and Environmental Resources Analyzed?. . . . .	3-2
Which Resources Would Not Be Affected by the Preferred Alternative? . . . . .	3-3
Coastal Zones . . . . .	3-3
Wild and Scenic Rivers . . . . .	3-4
Public Lands (Section 4(f), 6(f), and Forests). . . . .	3-4
Environmental Justice Populations . . . . .	3-4
How Would the Preferred Alternative Affect Traffic and Transportation? . . . . .	3-4
What is the accident history for US 12 in western Walla Walla County? . . . . .	3-4
How are capacity and mobility evaluated? . . . . .	3-6
How will local traffic be affected during construction of the Preferred Alternative? . . . . .	3-10
How will local traffic be affected after construction? . . . . .	3-11
Which Resources Would Be Affected and What Commitments and Mitigation Would Occur? . . . . .	3-12
Geology and Soils . . . . .	3-12
Air Quality . . . . .	3-15
Wetlands and Water Resources . . . . .	3-17

Fish, Wildlife, and Vegetation . . . . .	3-26
Noise. . . . .	3-41
Land Use . . . . .	3-45
Farmlands . . . . .	3-48
Historic, Cultural, and Archaeological Resources . . . . .	3-51
Social and Economic Resources . . . . .	3-53
Public Services and Utilities. . . . .	3-59
Hazardous Materials . . . . .	3-61
Visual Resources . . . . .	3-65
Indirect and Cumulative Effects . . . . .	3-68
What Resources Were Considered for the Cumulative Effects Analysis?. . . . .	3-68
What is the Current Health and Historical Context of These Resources?. . . . .	3-69
Regional Condition of Farms and Farmland . . . . .	3-71
Future Outlook of Farms and Farmland . . . . .	3-71
Regional Condition of Wildlife Habitat . . . . .	3-72
Future Outlook of Wildlife Habitat. . . . .	3-73
What Are the Current and Reasonably Foreseeable Actions Considered for the Cumulative Effects Analysis? . . . . .	3-74
What Are the Results of the Cumulative Effects Analysis? . . . . .	3-76
Geologic Resources . . . . .	3-76
Soil Resources . . . . .	3-77
Air Quality . . . . .	3-77
Climate . . . . .	3-78
Wetlands . . . . .	3-79
Surface Water and Groundwater . . . . .	3-79
Floodplains . . . . .	3-79
Fish and Fish Habitat . . . . .	3-80
Wildlife and Wildlife Habitat . . . . .	3-81
ESA-Listed Species . . . . .	3-82

Noise. . . . .	3-82
Land Use, Farms, and Farmlands . . . . .	3-83
Historic, Archaeological, and Cultural Resources . . . . .	3-84
Social and Economic Resources . . . . .	3-85
Hazardous Materials . . . . .	3-86
Visual Quality . . . . .	3-86
