

SR 520 Bridge Replacement and HOV Program

West Approach Bridge North Project **Construction Update**

East Lake Washington Boulevard will close for two consecutive weekends with an eastbound SR 520 closure added on the second weekend

May 2015

New Closure Information

From 11 p.m. Friday, June 5 to 5 a.m. Monday, June 8, crews working for WSDOT will close eastbound SR 520 between Montlake Boulevard and 92nd Avenue Northeast.

During this time, the eastbound SR 520 on-ramp from Lake Washington Boulevard and the eastbound SR 520 on-ramp from Montlake Boulevard will also be closed.

Construction activities

WSDOT and city of Seattle crews will work around the clock to replace old water and electrical utility lines. Crews will close East Lake Washington Boulevard (LWB) to work in three main areas:

- 1. LWB and Montlake Boulevard East intersection:** Crews will dig a trench and install electrical conduit for the traffic signals. Once the conduit is in place, crews will backfill and repave the roadway.
- 2. LWB and 24th Avenue East intersection:** Crews will excavate the roadway, install electrical conduit across the intersection and repave the roadway. Crews will also continue to install drainage pipes that connect to the existing system.
- 3. East of 24th Avenue East:** Crews will dig and install two maintenance holes that will connect the new sewer line installed under mainline SR 520 to the existing system under LWB.

All work will comply with city of Seattle temporary noise variance requirements and our construction best management practices. If you have construction questions that require an immediate response over the weekend, please call the 24-hour construction hotline at 206-708-4657.

East Lake Washington Boulevard closure hours

- 7 p.m. Friday, May 29 to 6 a.m. Monday, June 1
 - 7 p.m. Friday, June 5 to 6 a.m. Monday, June 8*
- * Eastbound SR 520 will be closed from 11 p.m. Friday, June 5 to 5 a.m. Monday, June 8. See orange box above.

What to expect:

Crews will sequence work to limit disruption to the neighborhood and complete work within the limited timeframe.

- **Noisy work:** Adjacent neighbors will likely hear and feel construction activities during the day and at night. Crews will use heavy machinery like excavators, saw cutters, dump trucks, compactors, paving machines, light plants and other large equipment.
- **Limited local access:** Trucks will be delivering and hauling materials within the construction zone. Neighbors should use alternative routes and on-street parking within the neighborhood. All SR 520 on- and off-ramps will remain open from May 29 to June 1 and all westbound SR 520 on- and off-ramps will remain open from June 5 to June 8.
- **Bicycle/pedestrian route:** Use the existing city of Seattle bike route over the 24th Avenue East bridge to travel through the construction zone.
