TYPE OF DISABILITY

- Disabled Person parking privileges may be granted to any person who has a disability that limits or impairs their ability to walk and/or meets one of the following criteria, as determined by a licensed physician.
- Cannot walk two hundred feet without stopping to rest.
- Is severely limited in ability to walk due to arthritic, neurological, or other orthopedic conditions.
- I so severely disabled, that the person cannot walk without the use of, or assistance from a brace, cane, another person, prosthetic device, wheelchair, or other assisting device.
- Uses portable oxygen.
- Is restricted by lung disease to such an extent that forced expiratory respiratory volume, when measured by spirometry, is less than one liter per second or the arterial oxygen tension is less than sixty mm/hg on room air at rest.
- Impairment by cardiovascular disease or cardiac condition to the extent that the person's functional limitations are classified as Class III or Class IV under standards accepted by the American Heart Association.
 - **CLASS III** – Patients with cardiac disease resulting in marked limitation of physical activity. They are comfortable at rest. Less than ordinary activity causes fatigue, palpitation, dyspnea, or anginal pain.
 - **CLASS IV** – Patients with cardiac disease resulting in an inability to carry on any physical activity without discomfort. Symptoms of heart failure or of the anginal syndrome may be present even at rest. If any physical activity is undertaken, discomfort is increased.
- Has a disability resulting from an acute sensitivity to automobile emissions which limits or impairs the ability to walk. The physician of the applicant shall document that the disability is comparable in severity to the other conditions listed above.
