Addendum to Noise Discipline Report

North Spokane Corridor Project

(Interchange at North Spokane Corridor and U.S. Highway 2)

Prepared for:

Washington State
Department of Transportation
2714 North Mayfair Street
Spokane, Washington 99207

Prepared by:

Jones & Stokes
11820 Northup Way, Suite E300
Bellevue, Washington 98005-1946
425/822-1077

May 23, 2001

This document should be cited as:

Jones & Stokes. 2001. *North Spokane Corridor Project (Interchange at North Spokane Corridor and U.S. Highway 2). Addendum to noise discipline report.* May 23. (J&S 0G010.01.) Bellevue, WA. Prepared for Washington State Department of Transportation, Spokane, WA.

Table of Contents

1 STUDIES AND COORDINATION 1
1.1 Project Description 1
1.2 Background Information on Noise 2
1.3 Federal Highway Administration and WSDOT Noise Standards 4
1.4 Definition of a Traffic Noise Impact 4

2 METHOD OF ANALYSIS 5
2.1 Assumed Traffic Conditions 5
2.2 Baseline Noise Monitoring 6
2.3 Modeling Limitations 7

3 OPERATIONAL IMPACTS 8
3.1 Sub-Segments 8C/8H (Shady Slope Neighborhood) 8
3.2 Sub-Segment 8C (Southwest Side of NSC; Shady Slope Road to Farwell Road) 9
3.3 Sub-Segment 8C (Northeast side of NSC; US 2 to Farwell Road) 9

4 NOISE ABATEMENT MEASURES 9
4.1 Noise Abatement Criteria 9
4.1.1 Feasibility 10
4.1.2 Reasonableness 10
4.2 Noise Abatement at the NSC-US 2 Interchange 11
4.2.1 Sub-Segment 8C (Shady Slope Neighborhood) 12
4.2.2 Sub-Segment 8C (Southwest Side of NSC; Shady Slope Road to Farwell Road) 13
4.2.3 Sub-Segment 8C (Northeast side of NSC; US 2 to Farwell Road) 13
4.3 Impacts Remaining after Consideration of Noise Abatement Measures 14

5 REFERENCES 14

APPENDIX A. TNM MODELING FILES

List of Tables and Figures

Table		Page
1	Weighted Sound Levels and Human Response	3
2	Federal Highway Administration Noise Abatement Criteria	4
3	Peak-Hour Traffic Volumes	6
4	Summary of Noise Monitoring Results Near NSC/US 2 Interchange	7
5	Summary of Noise Analysis Results for Design Year (2020)	follows 8
6	Allowance for Abatement of Impacts Caused by Total Traffic Noise Level	11
7	Summary of Noise Mitigation for North Spokane Corridor	follows 11
8	Allowance for Residential Noise Abatement Measures	12

Figures are located at the end of this report.

Figure	
1	North Spokane Corridor Overpass at US 2
2	Peak Hour Noise Levels without Special Noise Walls
3	Noise Barrier Walls with Mitigated Noise Levels
