## I-90 Tolling EIS scoping from Oct. 7 to Nov. 6.

The Federal Highway Administration and Washington State Department of Transportation are preparing an environmental impact statement (EIS) to evaluate potential effects of tolling Interstate 90 between I-5 in Seattle and I-405 in Bellevue.

### Participate in the scoping process to:

- Learn about the revised project purpose and need
- Help us “scope” out the issues to study in the draft EIS\*
- Review the range of alternatives under consideration

\*All comments submitted during the initial round of scoping between January 22 and February 22, 2013 will be included in the official I-90 Tolling EIS record.

## Three ways to comment

Whether you submit a comment verbally at a public meeting or at home from your computer, all comments are considered in the EIS document and included in the official I-90 Tolling EIS record if received by November 6, 2013.

## Scoping meeting details

FHWA and WSDOT will conduct three public meetings during the additional scoping period. Each meeting will feature display boards, project staff on hand to answer questions, and written and verbal comment stations. A court reporter will capture all verbal comments as part of the official record. There will not be a presentation or formal question and answer session.
