

What is an RDP

A long-range vision of a safe and efficient transportation system as defined by the affected jurisdictions and the users of the route.

- **Acts as WSDOT's Comp Plan for the State Highway**
- **A tool to define route continuity, access management and development review**
- **An opportunity to inventory existing and future conditions and coordinate efforts with local agencies**
- **Various elements – data collection, public involvement segment, traffic analysis piece and recommendations/review process**
- **Developed by consensus**
