I-405, Renton Stage 1 Widening Project Southbound I-405 HOV lane closure, Aug. 28-31

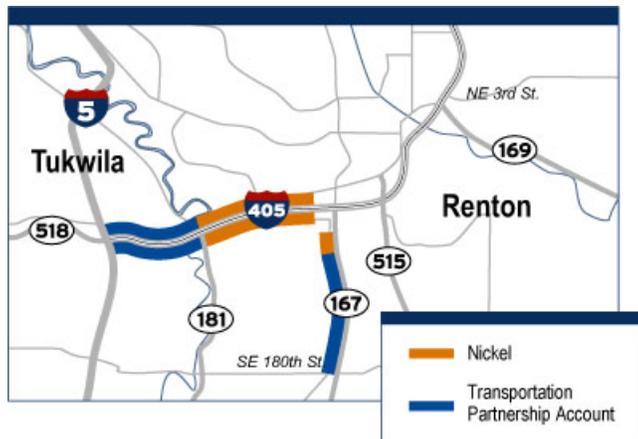

As crews widen I-405 through Renton, they are building a new, wider bridge over Oakesdale Avenue SW. A final phase of the work involves pouring concrete to pave the bridge deck on southbound I-405. This work will require a weekend HOV lane closure on southbound I-405 between SR 167 and SR 181 from 9 p.m. Friday night to 5 a.m. Monday morning.

Drivers heading to Seattle can use northbound I-405 to westbound I-90 to get back onto northbound I-5.

Drivers south of I-405 on SR 167 can use SR 18 or SR 516 to get to I-5.

The Renton Stage 1 project builds a new lane in each direction on I-405 between I-5 and SR 167 and a new lane on southbound SR 167 between I-405 and SW 41st Street.
