Property: North Spokane Corridor Project, Phase II (I-90 to Spokane River)  
Re: ADVERSE Effect

Dear Mr. Holstine:

Thank you for contacting the Department of Archaeology and Historic Preservation (DAHP). We have reviewed the materials you provided for the North Spokane Corridor Project, Phase II (I-90 to Spokane River). We concur with your determinations of eligibility, and that the project, as proposed, will have an Adverse Effect on a National Register of Historic Places-eligible property.

We look forward to further consultation and the development of a Memorandum of Agreement (MOA) to address this Adverse Effect.

We would appreciate receiving any correspondence or comments from concerned tribes or other parties that you take in as you consult under the requirements of 36CFR800.4(a)(4). These comments are based on the information available at the time of this review and on behalf of the State Historic Preservation Officer pursuant to Section 106 of the National Historic Preservation Act and its implementing regulations 36CFR800.

Thank you for the opportunity to review and comment. If you have any questions, please contact me.

Sincerely,

Lance Wollwage, Ph.D.  
Transportation Archaeologist
