

Economics

- WSDOT expects local job creation for construction, supplies and supporting services.
- Multiple skilled trades will be necessary to build the site and the pontoons.
- The job estimates in the draft EIS are based on the WSDOT design concept, cost estimate, and historic information from similar projects.
- WSDOT will continue to work with Kiewit-General to refine the job estimates for the final EIS.
- Kiewit-General will be responsible for securing vendors and subcontractors, and assembling a workforce for the project.
