

## SR 520 BRIDGE REPLACEMENT AND HOV PROGRAM

# Upcoming decommissioning activities

## NEAR FLOATING BRIDGE NAVIGATION CHANNELS

The following are upcoming decommissioning activities that boaters should be aware of. Please note that for both above water and below water work, boaters will see barges and equipment around the piers and will need to stay clear of the work zone. Due to the dynamic nature of construction, these dates may change and we will continue to update boaters through our website and boater email updates regarding navigation channel closures.

### East navigation channel

Beginning in early August, crews began removing the columns and crossbeam for old Pier 41 (shown in yellow below), near Medina.

In mid-August, boaters using the east navigation channel saw much shorter, 6 to 8-foot-tall columns in this location (shown in red below). These shorter columns are scheduled to remain in this location until mid-September, while crews move to the west side, near Madison Park, to complete similar decommissioning activities.

### West navigation channel

Decommissioning of old Pier 40 (shown in green below), near Madison Park, began at the end of August and is expected to take up to three weeks to complete. When crews are done with this work, the columns will be completely removed from the lake.

Crews continue to remove roadway deck and girders on both sides of the lake. The hollow (round) columns (shown in yellow below) and crossbeams on both the east and west sides of the old bridge, will remain until this fall.
