

Kiewit-General is currently building the new pontoon casting facility in Aberdeen and preparing to construct 33 pontoons for the new SR 520 floating bridge. In 2009, Kiewit-General completed the SR 104 Hood Canal floating bridge repair and replacement project for WSDOT, and prior to that successfully delivered the Tacoma Narrows Bridge replacement project as part of a joint venture team.

**Kiewit** is a world-class firm with a proven record of repeatedly delivering quality projects safely, on budget, and ahead of schedule. Kiewit is one of the largest and most respected construction organizations in North America.

- Key experience: In 2010, Kiewit completed two WSDOT design-build projects: the I-405, NE 195th to SR 527 northbound auxiliary lane and the SR 519, I-90 to SR 99 intermodal access interchange improvements.
- Headquarters: Omaha, NE

*Tacoma Narrows Bridge construction.*

**General Construction Company** has been part of the Kiewit family of companies since 2001. They are a heavy construction contractor with marine, industrial, heavy-civil, and design-build capabilities. They own one of the largest marine construction fleets in the world.

- Key experience: General Construction Company has completed multiple projects for the Washington State Ferries as well as anchor cable construction and replacement for the SR 104 Hood Canal Bridge, I-90 floating bridge and SR 520 floating bridge. General Construction was involved in the construction of the original SR 520 bridge in 1963.
- Headquarters: Federal Way, WA

**Manson Construction** is a quality name in heavy marine construction based on their experience, integrity and dependability. With a world-class marine construction fleet and a workforce that's unsurpassed for its experience and dedication to safety, Manson consistently delivers the best value. They take great pride in their reputation for completing construction projects on time and on budget.

- Key experience: Manson has completed a number of high quality bridge projects. In Washington State, they are currently working with WSDOT to replace the Manette Bridge, as part of a \$44 million contract, scheduled to open in early 2012. In 2007, they completed the San Francisco to Oakland Bay Bridge as part of a joint venture with Kiewit and FCI.
- Headquarters: Seattle, WA
