
VIII. RELATIONSHIP TO LOCAL CTR PLAN

Described below is the relationship of Redmond's GTEC program to our Local CTR plan:

TABLE VIII-1

Base CTR Program	GTEC Plan	Expected Benefits
The Base CTR Plan provides a consistent level of expectations and support to all CTR-affected employers throughout the City.	The Overlake GTEC Plan increases the mode split goals for CTR-affected employers in Overlake. Commensurate with the enhanced expectations, the plan provides for an enhanced level of outreach, financial support and implementation	The enhanced non-SOV mode split will increase the use of alternatives to single occupant vehicle use, thereby reducing vehicle trips, vehicle miles traveled and the attendant air quality impacts. In addition, the GTEC plan is expected to help realize the vision for the Overlake area of being a dynamic, vital and more pedestrian friendly mixed use environment.
