

Paying for the Projects: 2005 Transportation Partnership Account (TPA) financial information

Revenue forecast update

The accompanying chart compares the current September 2011 revenue forecast to the baseline forecast used in the budget making process when the 2005 Funding Package was adopted. The 2005 Funding Package was developed as a 16-year plan extending from 2005 through 2021.

The September 2011 forecast for gas tax receipts over the 16-year period decreased by 25.1% from the baseline forecast. This reduction is due to continued lower gasoline consumption. Because Washington State's gas tax is based on gallonage rather than price, reduced consumption results in reduced revenues.
