Our crews are prepared for the 'arctic blast' – are you?

With this weekend's forecast calling for wind, snow and cold temperatures, our maintenance crews are gearing up and getting ready to keep the roads clear. Now's a good time for you to make sure you're ready for [winter driving](#), too.

Before you hit the roads, make sure to give your vehicle some extra attention. Are your tires properly inflated? Are your windshield wipers in good shape? Are your fluids topped off? Are your lights, brakes and turn signals working properly? Do you have an emergency kit in your vehicle, just in case?

We have lots of [driving tips](#), [pass reports](#), [weather conditions](#) and [winter weather information](#) online. You can also get mountain pass reports e-mailed to you or sent via text message to your phone. We're even posting updates on [Twitter](#).

Need a refresher on how to put on snow chains?

We made a [short how-to video](#) showing the basic steps for putting chains on your car and posted it on YouTube.
