

SR 520 Bridge Replacement and HOV Program

Medina to SR 202: Eastside Transit and HOV Project

April 2013

Evergreen Point Road shifting to final location

Crews are hard at work getting Evergreen Point Road ready to open in its final location. Drivers should prepare for short delays as the new roadway is completed. This shift makes room for crews to complete lid-top landscaping this summer and the transit facility at the end of 2013.

Evergreen Point Road work highlights:

- Wednesday, April 24 to Friday, April 26 crews will reduce Evergreen Point Road to one lane of alternating traffic around-the-clock for grading activities
- Monday, April 29 to Friday, May 3 crews will reduce Evergreen Point Road to one lane of alternating traffic around-the-clock for paving activities

Paving work is weather dependent, therefore all dates are estimated and subject to change.

What can drivers expect?

Drivers should plan for short delays on Evergreen Point Road through the work zone. Pedestrian and bicycle access will be maintained while this work is completed.

Visualization shows Evergreen Point Road in its final design, including the park and ride and access to freeway transit stop.
