

Corridor Aesthetic Principles and Guidelines:

A Working Handbook for Community Enhancement

Corridor Aesthetics Handbook

The Handbook will be developed over the next year. The process will include multiple opportunities for public input regarding design guidelines.

The Handbook will:

- Present an integrated set of aesthetic design guidelines that document WSDOT's commitment to aesthetic design quality
- Illustrate the preferred aesthetic character of the SR 520 corridor
- Be a companion document to the EIS

Design Guideline Topics

- Scale
- Materials and finishes
- Neighborhood characteristics
- Landscaping and natural systems

SR 520 Bridge Replacement and HOV Project
