

**South Holgate Street to South King Street Viaduct Replacement Project Comment Form**

The Federal Highway Administration (FHWA) and the Washington State Department of Transportation (WSDOT) welcome your comments on the environmental assessment for the South Holgate Street to South King Street Viaduct Replacement Project. Please respond to the below questions and drop them in a comment box, or return to the address listed on the other side. To be considered as part of the official hearing period, comments must be postmarked by Aug. 11, 2008.

WSDOT studied a number of factors during the environmental assessment process, such as transportation, land use, visual quality and air quality. Do you have comments on any of our findings?

I-017-001

TRANSPORTATION: ADDITIONAL TRAFFIC MITIGATION WILL BE NEEDED DURING CONSTRUCTION ON THE SOUTH END PROJECT AND CONCURRENT CONSTRUCTION OF SPOKANE ST. WIDENING PROJECT. THIS IS PARTICULARLY IMPORTANT TO WEST SEATTLE RESIDENTS AND BUSINESSES. ADDITIONAL AND ENHANCED WATER TAXI SERVICE WOULD HELP TO ACCOMMODATE THIS. PLANS SHOULD BEGIN ASAP. THE BAAT AND SHUTTLES ARE BEING OVERWHELMED NOW.

Do you have any additional comments on the environmental assessment?

**I-017-001**

Exhibit 4-20 of the EA summarizes projects that are proposed to help keep traffic moving during construction of this project and other elements of the overall program. Water taxi service from West Seattle is not included. However, additional transit service will be receiving funding under this program. King County Metro and WSDOT have been working together to decide which services will receive increased funding. They have determined that a focus on buses and bus service hours is the best use of the available funding at this point in time.
