

520 Tolling Implementation Committee Open House Comment Form

Thank you for your attendance at this evening's open house. Your opinion will help shape how tolling is implemented in the 520 corridor. The 520 Tolling Implementation Committee will compile public comments on tolling in a report to the governor and legislature in January 2009.

1. Tolling the 520 Bridge in 2010 would immediately raise funds for the bridge replacement, reducing the overall cost of the project, as well as reduce congestion on the bridge, but the new bridge will not open until 2014, with the corridor fully complete in 2016. Do you think 520 should be tolled starting in 2010 or in 2016?

- 2010 2016 Undecided

2. If only 520 were tolled, more vehicles would switch to I-90. Tolling I-90 would allow for improvements such as new HOV lanes to be added to the bridge. Do you think the I-90 Bridge should also be tolled?

- Yes No Undecided

3. When a toll is charged to use 520, what is the ONE thing you are most likely to do for your trips on 520?
