Project Description

Constructs a new interchange on SR 522 to provide access to the new University of Washington Bothell/Cascadia Community College joint campus. Provides a signalized intersection approximately 1/2 mile west of the I-405 interchange where a new public street would be constructed from the campus to align with the existing tee intersection of Woodinville Drive at Brackett`s Landing. A new bridge over this intersection will allow traffic from I-405 to continue to Bothell. Also widens the southbound I-405 off-ramp to westbound SR 522 to provide two lanes. This project will improve motorist safety and address increased traffic volumes.
