Project Description

Population in Thurston and Pierce counties as well as Joint Base Lewis McChord (JBLM) has grown dramatically over the last ten years. As a result, Interstate 5 in the vicinity of JBLM is experiencing a significant increase in congestion. Installing northbound and southbound I-5 ramp meters from Mounts Road to SR 512, constructing southbound hard shoulder running from Thorne Lane to Berkeley Avenue, constructing HOV bypass lanes, installing cameras, data stations, variable message signs and other improvements will be the third of three projects designed to maximize the network efficiency between I-5 and connections to JBLM.
