## The SR 99 Tunnel Project – Your Questions Answered

**6 to 6:30 p.m.**

*Chris Bambridge, Alaskan Way Viaduct Replacement Program  
Tunnel Design Engineer*

People have a lot of questions about Bertha, the massive machine digging the SR 99 tunnel beneath downtown Seattle. What will happen if she hits a 10-foot boulder? When will the roadway inside the tunnel be built? How does Bertha's conveyor system work? Join us for this month's speaker series to hear tunneling expert Chris Bambridge answer the most commonly asked questions, and ask one of your own!

Free parking is available for First Thursday Art Walk patrons in Pioneer Square.  
Visit [www.FirstThursdaySeattle.com](http://www.FirstThursdaySeattle.com) for more information about participating garages.
