9	07/17/2009	Section 7.1 & Section 7.2	The RFQ asks us to identify business name, address, business type and roles of each Major Participant in both sections 1 and 2. Is it WSDOT's intention to list these items in both sections?	<p>The two sections are not entirely duplicative. In Section 7.1, we ask that you provide who the individuals/firms are on your team, where in 7.2 we want to know how they will effectively contribute to your team.</p> <p>Information provided in 7.1 is generic to identifying the individuals/firms hence only a 3 page limit. In 7.2, we ask for the involvement of the individuals/firms on the team and use names and roles in a generic sense (so we can confirm that they are the same individuals/firms listed in 7.1). For 7.2 there is a 5 page limit.</p>	N
