

Drowsy Driving

Research/Data

--We should keep an eye on drowsy driving stats with the legalization of marijuana. Increase?

Education

--More general education about drowsy driving

Engineering

--See targeted rumble strips by city/county engineering prior to and on curves.

--Thought by me alone – how about full lane rumble strips 100 feet prior to curve? In this way, a distracted or drowsy driver is snapped to attention in time to respond before hitting the hard curve.
