1. Temporary top strands shall be either pretensioned or post-tensioned in accordance with Standard Specification Section 6-02.5(25)L.

2. For girders erected on a longitudinal grade, strand detensioning blockouts shall be placed at the low end of the girder.

3. See "Temporary Strand Location Sequence" on Construction Sequence Sheet for temporary strand detensioning procedure.

Temporary Strand Notes:

- Pretensioned Option: Strand location shown
- Post-Tensioned Option: Strand location shown
