## Notes to Designer:

- 1. Plates must be checked for size and welds. Plates are used to replace flange steel removed for pipe installation.
- Weld must be checked along web to pipe and plate to flange, welds must be capable of tranferring PGA loads and flexural loads.
- 3. For walls with P.G.A. use a section size with a flange width bigger than or equal to HP12x53 or W12x65.
