1. Raised Pavement Markers Types 2YV and 2VH shall be spaced at 20' intervals on tangents and on horizontal curves with a radius of 5000' or more, and at 40' intervals on horizontal curves having radii of less than 5000'. Center the RPMs in the gaps between the pavement marking lines.

2. Type 2Y RPMs, when specified, shall be placed outside the left edge line at 60' intervals. See "LEFT EDGE OF LANE PLACEMENT DETAIL".

3. Raised pavement markers, when specified, shall be installed at the locations shown for Type 2WV RPMs on multimile one-way roadways, and Type 3YY RPMs on two lane two-way roadways.

4. The Type 2W RPMs placed on multimile one-way roadways and all RPMs not in remarks shall have an abrasion resistant coating.
