

Presenter Name: Scott Campbell CP

Presenter Title: Photogrammetry Manager

Presenter Company: WSDOT

Presentation (Course) Title: Photogrammetry and Terrestrial LIDAR Concepts for Surveyors

Presentation (Course) Description: How photogrammetry relates to survey, what survey field work is required to achieve the desired level of quality in photogrammetric mapping projects.

Presentation (Course) Objectives:

1. Basic understanding of photogrammetry.
2. Basic understanding of Terrestrial LIDAR (T-LIDAR) .
3. Understand how field survey is used to support both Photogrammetry and T-LIDAR.

Presentations:

1. [Photogrammetry and Terrestrial LIDAR Concepts for Surveyors](#) (Audio/video file)
