

1 (February 6, 2023)
2 The Contractor shall dispose of all creosoted timber, creosote piling and
3 associated debris as shown in the Plans in accordance with current federal,
4 state, and local regulations and provisions, and following Best Management
5 Practices. Handling shall meet the Minimum Functional Standards for Solid
6 Waste Handling, Chapter 173-304 WAC. Disposal shall be made in a landfill
7 which meets the liner and leachate standards of the Criteria for Municipal Solid
8 Waste Landfills, Chapter 173-351 WAC. The Contractor shall provide receipts
9 from the disposal facility to the Engineer. If the material is transported to a
10 transfer station, the Contractor shall obtain documentation indicating that final
11 disposal will comply with the standards referenced above.
