

1 (May 20, 2020)
2 The Contracting Agency has arranged for the Washington State Patrol (WSP) to
3 perform the following tasks during the project:

4
5 *** \$1\$\$ ***
6

7 There shall be no entitlement for any impacts for any reason as a result of WSP
8 personnel.
9

10 WSP personnel may not be used for any other work without prior acceptance from the
11 Engineer. The acceptance will identify the added work allowed, the terms under which
12 the WSP personnel may be used for the added work, and how the cost of the added
13 work will be shared by the Contractor and Contracting Agency.
14

15 This resource is provided at no additional cost to the Contractor for the initial *** \$2\$\$
16 *** hours and includes all costs (e.g., WSP labor, vehicle miles, etc.). Additional hours of
17 WSP personnel may be requested by the Contractor. If allowed by the Engineer, the
18 cost for these hours will be shared by the Contracting Agency and the Contractor. The
19 Contractor's share of the cost for additional hours will be one-half of the amount billed
20 by the law enforcement agency.
21

22 All costs for cancelled work due to unsuitable weather will be shared by the Contracting
23 Agency and the Contractor. The Contractor's share of the cost for cancelled work will be
24 one-half of the amount billed by the law enforcement agency, regardless of when the
25 actual work occurs. All costs for cancelled work for any other reason shall be the full
26 responsibility of the Contractor.
27

28 The Contractor's share of costs for additional hours of uniformed law enforcement
29 personnel will be credited to the Contracting Agency under the bid item "WSP
30 Reimbursement", by calculation.
