2 ***Asbestos Handling And Disposal***

3 Prior to and during, the performance of any contract work, the Contractor shall verify  
4 that no asbestos containing materials are involved or will be disturbed. When asbestos  
5 is encountered, the Contractor shall be responsible for obtaining all permits from, and  
6 provide notification to, the Washington State Department of Labor and Industries, the  
7 U.S. EPA, the local air pollution control agency, and other permitting and regulatory  
8 agencies with jurisdiction over the work involving asbestos as the law requires.

9  
10 Prior to commencing asbestos related work, the Contractor shall provide the Engineer  
11 with written verification of approvals and notifications that have been given and/or  
12 obtained from the required jurisdictional agencies, and the Contractor's schedule for all  
13 work involving asbestos removal. The schedule shall include the sequencing and  
14 scheduling of asbestos related work, and coordination with subcontractors. The  
15 Contractor shall notify the Engineer when all approvals have been received and  
16 notifications have been made, as required by the agencies involved.

17  
18 The Contractor shall ensure the safety of all workers, visitors to the site, and the general  
19 public in accordance with all applicable laws, rules, and regulations.

20  
21 The Contractor shall designate a Washington State Certified Asbestos Supervisor  
22 (CAS) to personally supervise the asbestos removal and to ensure that the handling  
23 and removal of asbestos is accomplished by certified asbestos workers, pursuant to  
24 Washington State Department of Labor and Industries standards. The Contractor shall  
25 ensure that the removal and disposal of asbestos meets the requirements of EPA  
26 regulations 40 CFR Part 61, local health department regulations, and all other  
27 applicable regulations.
