

1 **(April 6, 2015)**

2 ***Rapid Cure Silicone Sealant***

3 Rapid cure silicone sealant shall be Dow Corning 902 RCS Joint Sealant.

4

5 The Contractor shall deliver the joint sealant to the job site in the sealant manufacturer's
6 original sealed container. Each container shall be marked with the sealant
7 manufacturer's name and lot or batch number. Each lot or batch shall be accompanied
8 by the manufacturer's Materials Safety Data Sheet (MSDS), and Manufacturer's
9 Certificate of Compliance, identifying the lot or batch number, and certifying that the
10 materials conform to the properties stated on the product data sheet.

11

12 The backer rod shall be closed cell expanded polyethylene foam as recommended by
13 the sealant manufacturer. The diameter of the backer rod shall be as recommended by
14 the sealant manufacturer for the expansion joint opening at the time of installation.
